

HYPOTHESIS

A hypothesis is a tentative statement or explanation that proposes a possible relationship between variables and is subject to testing and verification.

OVERVIEW

A hypothesis is a testable prediction that seeks to explain a phenomenon or make a statement about the relationship between variables. It is formulated based on prior knowledge, observations, or theories. Hypotheses serve as a starting point for scientific investigation, and their validity is assessed through empirical evidence.

EXAMPLES

Null Hypothesis: The null hypothesis is a statement that suggests no significant relationship or effect between variables.

Alternative Hypothesis: The alternative hypothesis is a statement that proposes a specific relationship or effect between variables, challenging the null hypothesis.

AS Critical Thinking for AQA Oliver McAdoo, 2014-01-14 AS Critical Thinking for AQA is the definitive textbook for students of the current AQA Advanced Subsidiary Level syllabus Structured very closely around the AQA specification it covers the two units of the AS level in an exceptionally clear and student friendly style The chapters are helpfully subdivided into short digestible

passages and include intended learning objectives at the beginning of each chapter student exercises at the end of each section with a stretching activity for more advanced learners exam orientated questions key point summaries at the end of each section cross references In line with the AQA specification there is a heavy emphasis on more imaginative forms of source material for example music film artwork historical documents adverts moral dilemmas and scientific debates as a means of illustrating key points A great deal of emphasis is also placed on live or real arguments taking topical examples from the world of science politics entertainment and sport The book is accompanied by a companion website with extensive resources for both instructors and students

Prison(Er) Education David Wilson, Anne Reuss, 2000-12-01 Prison er Education comprises key essays by leading prison education practitioners academics and prisoners including new work on how to evaluate the success of education within prison by Dr Ray Pawson of Leeds University and Stephen Duguid of Simon Fraser University Canada A major challenge to penal policy makers to accept the value of education beyond basic skills and at a time when prison regimes have come to be dominated by cognitive thinking skills courses
