

ACCOUNTABILITY

DEFINITION

Accountability is the responsibility of an individual or organization to answer for its activities. It involves accepting the consequences, both positive and negative, of one's actions. This principle ensures transparency and honesty in various processes and decisions. It is a cornerstone of trust in both personal and professional relationships.

EXAMPLES

- **Admitting Mistakes:** Instead of deflecting blame or making excuses, an accountable person owns up to their errors and seeks to make amends.
- **Seeking Feedback:** Proactively asking for feedback on performance and genuinely being open to making improvements based on that feedback.
