

ASSETS

Assets are resources owned by a business that have economic value and can be converted into cash. They are divided into current assets and non-current assets.

Current Assets are assets that are expected to be converted into cash or sold within one year. Examples include cash, accounts receivable, inventory, and prepaid expenses.

Non-current Assets are assets that are not expected to be converted into cash or sold within one year. Examples include property, plant, and equipment, and intangible assets like patents and trademarks.

LIABILITIES

Liabilities are obligations or debts that a business owes to others. They are divided into current liabilities and non-current liabilities.

Current Liabilities are liabilities that are due within one year. Examples include accounts payable, short-term debt, and accrued liabilities.

Non-current Liabilities are liabilities that are due after more than one year. Examples include long-term debt and deferred tax liabilities.
