for Air takes us into the world of preprogrammed radio shows empty television news stations and copycat newspapers to show how corporate ownership and control of local media has remade American political and cultural life Klinenberg argues that the demise of truly local media stems from the federal government's malign neglect as the agencies charged with ensuring diversity and open competition have ceded control to the very conglomerates that consistently undermine these values and goals Such big media may not be here to stay however Eric Klineberg's Fighting for Air delivers a call to action revealing a rising generation of new media activists and citizen journalists a coalition of liberals and conservatives who are demanding and even creating the local coverage they need and deserve
