Monumental Cat Dawson, 2025-08-05 How recent shifts in social politics have dramatically changed our relationship to monuments For centuries monuments have telegraphed the values and origin myths of dominant culture in public space and on massive scale They have signaled both who is part of a culture and who is not often overlooking histories that complicate the stories they tell Yet in the last 50 years in the United States the role of monuments has changed significantly Numerous historical monuments have been removed or toppled bringing to the fore a long repressed conversation about the relationship between the monumental landscape and national identity In **Monumental** Cat Dawson takes up the social political and art historical causes and ramifications of this important shift Examining the conditions that have led to and define this new era Dawson reveals that these interventions are as indebted to the monumental tradition as they are to representational strategies that grew out of twentieth century social justice efforts from the Civil Rights movement to queer organizing during the AIDS crisis Since 2014 a new generation of artists has established a groundbreaking role for monuments calling into question the very notion of what a monument is through novel investigations of how symbolic structures can be made and what stories they can tell This book tells the important story of that sea change

Epoch, 1891 **Needlework, Affect and Social Transformation** Katja May, 2023-09-21 **Needlework Affect and Social Transformation** offers an original framework for moving beyond binary discourses that class practices of needlework as either feminist or reactionary Using transnational contemporary case studies such as the Social Justice Sewing Academy fictionalised Bangladeshi garment workers as well as the famous Pussyhat Project

Katja May suggests a new approach to the interpretation of textile crafts as an affective social practice and draws on underrepresented issues of race May connects her study to broader material and social conditions of inequality allowing for a nuanced and sensitive understanding of the role of needlework in feminist political activism This broader look at how textile crafts function in the realms of politics and activism conceptualizes quilting dressmaking embroidery and knitting as routine activities invested with emotions and entangled with material and social conditions as well as political potential **The Quilt Connection** ,1989
