Atlantic Virginia Intercolonial Relations In The Seventeenth Century:

Atlantic Virginia April Lee Hatfield,2007-03-15 A solid thought provoking study of a far more complex world than historians of seventeenth century Virginia have yet offered Journal of Southern History **Atlantic Virginia** April Lee Hatfield,2004 The American South William J. Cooper Jr.,Thomas E. Terrill,2008-10-23 In The American South A History Fourth Edition William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the South from the history of the United States The authors analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision In supporting their thesis the authors draw on the tremendous amount of profoundly new scholarship in Southern history Each volume includes a substantial biographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South Coverage now includes the devastation of Hurricane Katrina in 2005 up to date analysis of the persistent racial divisions in the region and the South s unanticipated role in the 2008 presidential primaries **The Quaker Community on Barbados** Larry Dale Gragg,2009 Prior to the Quakers large scale migration to Pennsylvania Barbados had more Quakers than any other English colony But on this island of sugar plantations Quakers confronted material temptations and had to temper founder George Fox s admonitions regarding slavery with the demoralizing realities of daily life in a slave based economy one where even most Quakers owned slaves In The Quaker Community on Barbados Larry Gragg shows how the community dealt with these contradictions as it struggled to change the culture of the richest of England s seventeenth century colonies Gragg has conducted meticulous research on two continents to re create the Barbados Quaker community Drawing on wills censuses and levy books along with surviving letters sermons and journals he tells how the Quakers sought to implement their beliefs in peace simplicity and equality in a place ruled by a planter class that had built its wealth on the backs of slaves He reveals that Barbados Quakers were a critical part of a transatlantic network of Friends and explains how they established a counterculture on the island one that challenged the practices of the planter class and the class s dominance in island government church and economy In this compelling study Gragg focuses primarily on the seventeenth century when the Quakers were most numerous and active on Barbados He tells how Friends sought to convert slaves and improve their working and living conditions He describes how Quakers refused to fund the Anglican Church take oaths participate in the militia or pay taxes to maintain forts and how they condemned Anglican clergymen disrupted their services and wrote papers critical of the established church By the 1680s Quakers were maintaining five meetinghouses and several cemeteries paying for their own poor relief and keeping their own records of births deaths and marriages Gragg also tells of the severe challenges and penalties they faced for confronting and rejecting the dominant culture With their civil disobedience and stand on slavery Quakers on Barbados played an important role in the early British Empire but have been largely neglected

by scholars Gragg s work makes their contribution clear as it opens a new window on the seventeenth and eighteenth century Atlantic world *A Very Mutinous People* Noeleen McIlvenna,2009 Historians have often glorified eighteenth century Virginia planters philosophical debates about the meaning of American liberty But according to Noeleen McIlvenna the true exemplars of egalitarian political values had fled Virginia s plantation societ Advancing Empire L. H. Roper,2017-07-03 This book explores seventeenth century English overseas expansion offering a unique interpretation of the history of the early modern English Empire Journal of the Civil War Era William A. Blair,2011-03-01 The University of North Carolina Press and the George and Ann Richards Civil War Era Center at the Pennsylvania State University are pleased to announce the launch of The Journal of the Civil War Era William Blair of the Pennsylvania State University serves as founding editor The journal takes advantage of the flowering of research on the many issues raised by the sectional crisis war Reconstruction and memory of the conflict while bringing fresh understanding to the struggles that defined the period and by extension the course of American history in the nineteenth century The Journal of the Civil War Era aims to create a space where scholars across the many subfields that animate nineteenth century history can enter into conversation with each other Table of Contents for this issue Volume One Number One Editor s Note William Blair Welcome to the New Journal Articles Edward L Ayers and Scott Nesbit Seeing Emancipation Scale and Freedom in the American South Melinda Lawson Imagining Slavery Representations of the Peculiar Institution on the Northern Stage 1776 1860 LeeAnn Whites Forty Shirts and a Wagonload of Wheat Women the Domestic Supply Line and the Civil War on the Western Border Review Essay Douglas R Egerton Rethinking Atlantic Historiography in a Post Colonial Era The Civil War in a Global Perspective Book Reviews Books Received Professional Notes Aaron Sheehan Dean The Nineteenth Century U S History Job Market 2000 2009 The Ashgate Research Companion to Modern Imperial Histories John Marriott,2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with

other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire **Colonial Ports, Global Trade, and the Roots of the American Revolution (1700 — 1776)** Jeremy Land,2023-07-24 This title is published in Open Access with the support of the University of Helsinki Library This book takes a long run view of the global maritime trade of Boston New York and Philadelphia from 1700 to American Independence in 1776 Land argues that the three cities developed large global networks of maritime commerce and exchange that created tension between merchants and the British Empire which sought to enforce mercantilist policies to constrain American trade to within the British Empire Colonial merchants created and then expanded their mercantile networks well beyond the confines of the British Empire This trans imperial trade often considered smuggling by British authorities formed the roots of what became known as the American Revolution The Economy of Early America Cathy D. Matson,2006 In recent years scholars in a number of disciplines have focused their attention on understanding the early American economy This text enters the resurgent discussion by showcasing the work of leading scholars who represent a spectrum of historiographical and methodological viewpoints
