Humber, Robert F. Almeder, 1984-11-25 This is the second volume of Biomedical Ethics Reviews a series of texts designed to review and update the literature on issues of central importance in bioethics today Five topics are discussed in the present volume Section I Public Policy and Research with Human Subjects reviews the history of the moral issues involved in the history of research with human subjects and confronts most of the major legal and moral problems involving research on human subjects Questions addressed in this section range from those concerning informed and proxy consent to those dealing with the adequacy of monitoring human research via institutional review boards IRBs Section II deals with a second broad topic in bioethics The Right to Health Care in a Democratic Society Here the concern not merely that of determining whether there is a right to health care but also if there is such a right how it ought best be understood and implemented To answer questions such as these we learn that one must distinguish legal from moral rights assess the merits of various theories of rights clarify the relationship between rights and duties and attempt to determine a just method for the distribution of health care Advances in medical technology often pose new legal and moral problems for legislators and health care practitioners

Fetal Therapy Nicholas M. Fisk, Kenneth J. Moise, 1997-01-28 This authoritative international text on fetal therapy is the first to cover all three classes of fetal therapy in one book transplacental drug treatment invasive procedures and fetal surgery It emphasises treatments which have become established in clinical practice in this rapidly developing field as well as reviewing those that have failed to live up to initial expectation and discusses the likely impact of new therapies on the horizon The editors head a team of American European and Australasian authors all of whom are leading experts in their respective fields The text is authoritative evidence based and balanced finding the common ground between the opposing camps of enthusiasts and therapeutic nihilists It will be an essential source of reference for all those involved in the care of the unborn child and particularly for obstetricians training in fetal medicine Fetal Therapy Mark D. Kilby, Anthony Johnson, Dick Oepkes, 2020-01-02 Covers the latest insights in fetal therapy and provides essential knowledge for maternal fetal and neonatology specialists *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), *Everyday Bioethics* Giovanni Berlinguer, 2020-11-25 Everyday Bioethics suggests a new perspective on the relationships between science ethics and society It is based upon the distinction and integration of two fields the frontier bioethics which examines the new development of biomedicine and the bioethics of everyday life which concerns all people around the world Indeed moral reflection on birth human bodies jobs the gender and class relations diseases and the treatment of the sick death the interdependence of human beings and other living creatures has a long history as long as that of mankind itself The ideas and values that daily permeate the minds and behaviors of all human beings in these fields deserve the greatest attention and are increasingly influenced by the progress of science and technology Cumulated Index Medicus, 1984 **A Companion to Bioethics** Helga Kuhse, Peter Singer, 2013-04-16 This second edition of A Companion to Bioethics fully revised and updated to reflect the current issues and developments in the field covers all the
