**Biopsychology** John P. J. Pinel, 2010-10-25 Pinel clearly presents the fundamentals of Biopsychology and makes the topics personally and socially relevant to the reader. The defining feature of Biopsychology is its unique combination of biopsychological science and personal reader oriented discourse. Rather than introducing biopsychology in the usual textbook fashion, it interweaves the fundamentals of the field with clinical case studies, social issues, personal implications, and humorous anecdotes. It tries to be a friendly mentor that speaks directly to the reader, enthusiastically relating recent advances in biopsychological science. Through MyPsychLab for Biopsychology 8th edition, students can interact with a virtual brain simulation and see various animations to help them better understand the content being covered in class and in their textbook. **Brain, Consciousness, and God** Daniel A. Helminiak, 2015-07-16 Brain, Consciousness, and God is a constructive critique of neuroscientific research on human consciousness and religious experience. An adequate epistemology, a theory of knowledge, is needed to address this topic, but today there exists no consensus on what human knowing means, especially regarding nonmaterial realities. Daniel A. Helminiak turns to twentieth-century theologian and philosopher Bernard Lonergan's breakthrough analysis of human consciousness and its implications for epistemology and philosophy of science. Lucidly summarizing Lonergan's key ideas, Helminiak applies them to questions about science, psychology, and religion. Along with Lonergan, eminent theorists in consciousness studies and neuroscience get deserved detailed attention. Helminiak demonstrates the reality of the immaterial mind and addresses the Cartesian mind-body problem, explaining how body and mind could make up one being a person. Human consciousness is presented not only as awareness of objects but also as self-presence, the self-conscious experience of human subjectivity, a spiritual reality. Lonergan's analyses allow us to say exactly what spiritual means and it need have nothing to do with God.
