1. Community Ecology (100 points)

How does an ecosystem or community reach equilibrium? Factors:

- Disturbance: disturbance, perturbation, disturbance, disturbance, disturbance
- Resource: resource, resource, resource, resource, resource
- Limitation: limitation, limitation, limitation, limitation, limitation
- Stability: stability, stability, stability, stability, stability
- Resilience: resilience, resilience, resilience, resilience, resilience

1. An ecosystem progresses through a series of stages as it moves toward equilibrium.
2. Disturbance, such as a fire, can reset the clock on succession, forcing the system back to square one.
3. The study of living things, whether considered individually or as part of a community, is called ecology.
4. The study of how living things interact with each other and their environment is called community ecology.
5. The study of how living things interact with each other and their environment is called community ecology.
6. The study of how living things interact with each other and their environment is called community ecology.

Ssg- Human Biology 6E Student Study Guide Chiras,2008-02 Human

Biology Sixth Edition provides students with a clear and concise introduction to the general concepts of mammalian biology and human structure and function. With its unique focus on health and homeostasis, Human Biology enhances students' understanding of their own health needs and presents the scientific background necessary for students to think critically about biological information they encounter in the media. The completely revised content and exceptional new art and photos provide students with a more user-friendly text while excellent learning tools maximize comprehension of material.
