Bhagavad Gita A Translation Of The Poem:

Bhagavad Gita Mani Rao, 2010 Sacred Hindu scripture is freshly presented in adventurous contemporary English poetry capturing the wildness of the original Sanskrit language that has been lost in generations of listless prose translations Long considered among the most important texts in the history of literature and philosophy the 700 verses here capture the dialogue between Krishna revered by Hindus as a manifestation of God and the character of Arjuna on the battlefield before the start of the Kurukshetra War Explaining not only the duties of a warrior but also elaborating upon different Yogic and Vedantic philosophies through examples and analogies this major ancient Indian epic has often been described as a concise introduction to Hindu theology and a practical self contained guide to life

Godsong Amit Majmudar, 2018-03-20 A fresh strikingly immediate and elegant verse translation of the classic with an introduction and helpful guides to each section by the rising American poet Born in the United States into a secularized Hindu family Amit Majmudar puzzled over the many religious traditions on offer and found that the Bhagavad Gita had much to teach him with its song of multiplicities Chief among them is that its own assertions aren't as important as the relationships between its characters The Gita imagined a relationship in which the soul and God are equals it is he believes the greatest poem of friendship in any language His verse translation captures the many tones and strategies Krishna uses with Arjuna strict and berating detached and philosophical tender and personable Listening guides to each section follow the main text and expand in accessible terms on the text and what is happening between the lines Godsong is an instant classic in the field from a poet of skill fine intellect and perhaps most important devotion

Bhagavad Gita Stephen Mitchell, 2007-12-18 Stephen Mitchell is widely known for his ability to make ancient masterpieces thrillingly new to step in where many have tried before and create versions that are definitive for our time His celebrated version of the Tao Te Ching is the most popular edition in print and his translations of Jesus Rilke Genesis and Job have won the hearts of readers and critics alike Stephen Mitchell now brings to the Bhagavad Gita his gift for breathing new life into sacred texts The Bhagavad Gita is universally acknowledged as one of the world's literary and spiritual masterpieces It is the core text of the Hindu tradition and has been treasured by American writers from Emerson and Thoreau to T S Eliot who called it the greatest philosophical poem after the Divine Comedy There have been more than two hundred English translations of the Gita including many competent literal versions but not one of them is a superlative literary text in its own right Now all that has changed Stephen Mitchell's Bhagavad Gita sings with the clarity the vigor and the intensity of the original Sanskrit It will as William Arrowsmith said of Mitchell's translation of The Sonnets to Orpheus instantly make every other rendering obsolete

The Nay Science Vishwa Adluri, Joydeep Bagchee, 2014-06-03 The Nay Science offers a new perspective on the problem of scientific method in the human sciences Taking German Indological scholarship on the Mahabharata and the Bhagavadgita as their example Adluri and Bagchee develop a critique of the modern valorization of method over truth in the humanities The authors show how from its origins in eighteenth century Neo Protestantism onwards the critical method was used as a way of making theological claims against rival philosophical and or religious traditions Via discussions of German Romanticism the pantheism controversy scientific positivism and empiricism they show how theological concerns dominated German scholarship on the Indian texts Indology functions as a test case for wider concerns the rise of historicism the displacement of philosophical concerns from thinking and the belief in the ability of a technical method to produce truth Based on the historical evidence of the first part of the book Adluri and Bagchee make a case in the second part for going beyond both the critical pretensions of modern academic scholarship and the objections of its post structuralist or post Orientalist critics By contrasting German Indology with Plato s concern for virtue and Gandhi s focus on praxis the authors argue for a conception of the humanities as a dialogue between the ancients and moderns and between
