Bioethics And Vulnerability A Latin American View Values In Bioethics:

Bioethics and Vulnerability Florencia Luna,2006 This book presents some of the challenges bioethics in Latin America faces today It considers them through the lenses of vulnerable populations those incapable of protecting their own interests such as the illiterate women in societies disrespectful of their reproductive rights and research subjects in contexts where resources are scarce

Bioethics and Vulnerability Florencia Luna,2006-01-01 This book presents some of the challenges bioethics in Latin America faces today It considers them through the lenses of vulnerable populations those incapable of protecting their own interests such as the illiterate women in societies disrespectful of their reproductive rights and research subjects in contexts where resources are scarce

Controversies in Latin American Bioethics Eduardo

Rivera-López,Martin Hevia,2019-06-19 This book offers a first rate selection of academic articles on Latin American bioethics It covers different issues such as vulnerability abortion biomedical research with human subjects environment exploitation commodification reproductive medicine among others Latin American bioethics has been to an important extent parochial and unable to meet stringent international standards of rational philosophical discussion The new generations of bioethicists are changing this situation and this book demonstrates that change All articles are written from the perspective of Latin American scholars from several disciplines such as philosophy and law Working with the tools of analytical philosophy and jurisprudence this book defends views with rational argument and opening for pluralistic discussion

Arguments and Analysis in Bioethics ,2010-01-01 Is there any justification for the common practice of allocating expensive medical resources to rescue a few from rare diseases when those resources could be used to treat devastating diseases that affect the many Does the use of Prozac and other anti depressants make us inauthentic beings Is it immoral and irrational to have children What is the force of examples and counterexamples in bioethics What are the relevance of moral intuition and the role of empirical evidence in bioethical argument What notion of function underlies accounts of the distinction between normality and disease and between therapy and enhancement Is there an inherent conflict between research aimed at therapy and research aimed at gaining knowledge such that the very notion of therapeutic research is an oxymoron The twenty one chapters in this volume strive through the use of high quality argument and analysis to get a good deal clearer concerning a range of issues in bioethics and a range of issues about bioethics The essays are provocative indeed some quite radical and disturbing as they call into question many common methodological and substantive assumptions in bioethics

Dialogue on Grief and Consolation Terence O'Connell,2009 Have you lost a loved one The loss can be inestimable the grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person

can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She s no longer suffering and the grieving person s resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief

Beyond Perestroika Gary G. Gallop, 2009 This book investigates rapid societal change in Russia during the early 1990s The story of the anthropologist author and the people he studied reveals cultural similarities and differences between them Russians and Latvians taught the author about the Soviet Union its people and its cultures Formal axiology provides a novel way to access their changing values

Evolutionary Ontology Josef Šmajs, 2008 This book examines new concept of evolutionary ontology based on the idea of radically different ontic orders natural and cultural being It explains how culture evolved out of nature and how it became anti natural The remedy is seen in the global biophilous reconstruction of culture The value of the live planet Earth and the subject capable of creative activity and evolution are given fundamental philosophical interpretation

Beyond Conceptual Dualism Giuseppe Vicari, 2008 This book is a systematic analysis of John R Searle s philosophy of mind Searle s view of mind as a set of subjective and biologically embodied processes can account for our being part of nature qua mindful beings This model finds support in neuroscience and offers reliable solutions to the problems of consciousness mental causation and the self

Understanding Moral Weakness Daniel P. Thero, 2022-05-20 This book considers the common human predicament that we often choose an action other than the one we perceive to be best Philosophers know this problem as akrasia The author develops a nuanced understanding of the nature and causes of akrasia by integrating the best insights of Socrates Aristotle Augustine and Aquinas and several contemporary philosophers

The Vision of Gabriel Marcel Brendan

Sweetman, 2008-01-01 This book illustrates the profound implications of Gabriel Marcel s unique existentialist approach to epistemology not only for traditional themes in his work concerning ethics and the transcendent but also for epistemological issues concerning the objectivity of knowledge the problem of skepticism and the nature of non conceptual knowledge among others There are also chapters of dialogue with philosophers Jacques Maritain and Martin Buber In focusing on these themes the book makes a distinctive contribution to the literature on Marcel
