Pākehā Settlements in a Māori World Ian Smith, 2020-01-28 *Pākehā Settlements in a Māori World* offers a vivid account of early European experience in these islands through material evidence offered by the archaeological record As European exploration in the 1770s gave way to sealing whaling and timber felling Pākehā visitors first became sojourners in small remote camps then settlers scattered around the coast Over time mission stations were established alongside farms businesses and industries and eventually towns and government centres Through these decades a small but growing Pākehā population lived within and alongside a Māori world often interacting closely This phase drew to a close in the 1850s as the numbers of Pākehā began to exceed the Māori population and the wars of the 1860s brought brutal transformation to the emerging society and its economy Archaeologist Ian Smith tells the story of adaptation change and

continuity as two vastly different cultures learned to inhabit the same country From the scant physical signs of first contact to the wealth of detail about daily life in established settlements archaeological evidence amplifies the historical narrative Glimpses of a world in the midst of turbulent change abound in this richly illustrated book As the visual narrative makes clear archaeology brings history into the present making the past visible in the landscape around us and enabling an

Hutton,Christopher Hutton,2025 In The People That Never Were Christopher M Hutton takes a fresh look at the term Aryan making the case that the concept was brought into being by western philology and Indology Hutton then takes the reader through the history of the concept beginning with colonial scholarship in India around 1800 and ending in the first decades of the twentieth century By exploring the complex history of the Aryan paradigm Hutton raises a challenging set of questions for the modern discipline of linguistics and illuminates the role of linguistic scholarship in political understandings of human diversity

and emotional economies of exploration Following the curious mobility of texts objects and frameworks of knowledge this volume teases out the diversity of ways in which violence and intimacy were expressed in the economies of everyday encounters on the ground In doing so it broadens the horizon of debate about the nature of colonial economies and the intercultural encounters that were enmeshed within them
