Access and Mediation Maren Wehrle, Diego D'Angelo, Elizaveta Solomonova, 2022-02-07 Recent years have seen a rise in interdisciplinary approaches to the study of the mind However relatively little emphasis has been placed on attention its functions and phenomenology As a result there are a multitude of definitions and explanatory frameworks that describe what attention is what it does and how it works This volume proposes that one way to discuss attention is by utilizing an integrative multidisciplinary framework that takes into consideration aspects of attention as a means of accessing the world and as a mediator of experience It brings together contributions from cognitive science philosophy and psychology in order to shed light on these aspects of attention By including both theoretical and empirical approaches to attention this volume will provide

- 1 an innovative framework for examining attention as something that mediates experience and
- 2 new perspectives on foundational and definitional issues of what attention is and how it contributes to our ability to access the world

By drawing together different disciplines this volume broadens the concept of attention It opens up a new way of looking at attention as an active process through which the world is disclosed for us
