Accommodating Justice Statements Sentencing Process:

The Use of Victim Impact Statements in Sentencing for Sexual Offences Rhiannon Davies, Lorana Bartels, 2021-03-17

Drawing on extensive research from Australia this book examines the experiences of sexual offence victims who submit a victim impact statement. Victim impact statements are used in sentencing to outline the harm caused to victims. There has been little research on the impact statement experiences of sexual offence victims. This book fills this gap examining the perspectives of six adult female victims and 15 justice professionals in Australia. This is supplemented by analysis of 100 sentencing remarks revealing how courts use such statements in practice. This book examines victims' experiences of preparing and submitting statements, justice professionals' experiences of working with victims to submit statements, and the judicial use of impact statements in sentencing. It identifies an overarching lack of clarity around the purpose of impact statements which affects the information that can be included and the way they can be used by the court. It consequently explores issues associated with balancing the expressive and instrumental purposes of such statements and the challenges in communication between professionals and victims of crime. The findings highlight several issues with the operation of impact statement regimes. Based on these findings, the book makes recommendations to clarify such regimes to improve communication between justice professionals and victims of crime and to enhance the therapeutic goals of such statements. An accessible and compelling read, this book is essential reading for all those engaged with victimology, sentencing and sexual violence.

Performing Judicial Authority in the Lower Courts Sharyn Roach Anleu, Kathy Mack, 2017-05-10. Judicial authority is constituted by everyday practices of individual judicial officers balancing the obligations of formal law and procedure with the distinctive interactional demands of lower courts. *Performing Judicial Authority in the Lower Courts* draws on extensive original independent empirical data to identify different ways judicial officers approach and experience their work. It theorizes the meanings of these variations for the legitimate performance of judicial authority. The central theoretical and empirical finding presented in this book is the incomplete fit between conventional norms of judicial performance emphasizing detachment and impersonality and the practical day to day judicial work in high volume time pressured lower courts. Understanding the judicial officer as the crucial link between formal abstract law, the legal institution of the court and the practical tasks of the courtroom generates a more complete theory of judicial legitimacy which includes the manner in which judicial officers present themselves and communicate their decisions in court.

Adversarial Justice and Victims' Rights Mary Iliadis, 2020-04-30 Adversarial Justice and Victims Rights explores the extent to which reforms that offer victims enhanced rights to information and participation across England and Wales Ireland and South Australia can address sexual assault victims procedural and substantive justice concerns The rights status and treatment of sexual assault victims has emerged as a significant 21st century concern occupying the forefront of legal commentary on international policy agendas Informed by the voices of 26 high level criminal justice professionals legal stakeholders and victim support workers and a quantitative dataset this book considers whether legal representation can address some of the problems of the prosecution process for sexual assault victims in Victoria and indeed in other adversarial jurisdictions that employ similar legislative frameworks While acknowledging the value of victim focused reforms the book contends that cultural changes to the ways in which sexual assault victims are perceived and treated are necessary in order to improve victims experiences of the legal process Reconceptualising the role of sexual assault victims from witnesses to participants will also increase the likelihood that victims rights and interests will be considered alongside those of the state and the accused Situating its findings within broader debates about the role rights and treatment of sexual assault victims in adversarial justice systems the book outlines prospects for the transfer of policy and practice between jurisdictions Adversarial Justice and Victims Rights will be of great interest to academic and policy stakeholders engaged in criminology law and socio legal studies as well as students researching sexual violence and victims access to justice

Judging and Emotion Sharyn Roach Anleu, Kathy Mack, 2021-02-03 Judging and Emotion investigates how judicial officers understand experience display manage and deploy emotions in their everyday work in light of their fundamental commitment to impartiality Judging and Emotion challenges the conventional assumption that emotion is inherently unpredictable stressful or a personal quality inconsistent with impartiality Extensive empirical research with Australian judicial officers demonstrates the ways emotion emotional capacities and emotion work are integral to judicial practice Judging and Emotion articulates a broader conception of emotion as a social practice emerging from interaction and

demonstrates how judicial officers undertake emotion work and use emotion as a resource to achieve impartiality A key insight is that institutional requirements including conceptions of impartiality as dispassion do not completely determine the emotion dimensions of judicial work Through their everyday work judicial officers construct and maintain the boundaries of an impartial judicial role which necessarily incorporates emotion and emotion work Building on a growing interest in emotion in law and social sciences this book will be of considerable importance to socio legal scholars sociologists the judiciary legal practitioners and all users of the courts
