Abortion My Choice Gods Grace Christian Women Tell Their Stories:

Abortion--my Choice, God's Grace Anne Marie Eggebrotten,1994 Christian women tell their story **Abortion and the Christian Tradition** Margaret D. Kamitsuka,2019-10-29 Abortion remains the most contested political issue in American life Poll results have remained surprisingly constant over the years with roughly equal numbers supporting and opposing it A common perception is that abortion is contrary to Christian teaching and values While some have challenged that perception few have attempted a comprehensive critique and constructive counterargument on Christian ethical and theological grounds Margaret Kamitsuka begins with a careful examination of the churchs biblical and historical record refuting the assumption that Christianity has always condemned abortion or that it considered personhood as beginning at the moment of conception She then offers carefully crafted ethical arguments about the pregnant womans authority to make reproductive decisions and builds a theological rationale for seeing abortion as something other than a sin **Holy Abortion? A Theological Critique**

of the Religious Coalition for Reproductive Choice Michael J. Gorman,Ann Loar Brooks,2003-03-13 Four mainline Protestant denominations the ECUSA PCUSA UCC and UMC are affiliated with RCRC In this important new book the authors carefully examine the literature and liturgical aids produced by RCRC demonstrating how its theology radically contradicts the statements on abortion issued by its affiliated churches **Abortion from the Religious and Moral Perspective:**

George F. Johnston,2003-03-30 For approximately three decades the abortion debate has polarized America Views range from the extreme conservative position that all abortions are morally objectionable to the extreme liberal position that abortion throughout all nine months of pregnancy is acceptable In the middle are those who advocate laws limiting the number of valid reasons for abortion This comprehensive volume includes bibliographic citations that address the moral and religious aspects of abortion It covers such topics as the various arguments both for and against abortion the status of the fetus and overviews of several religions stances on abortion Citations also include references on how Christianity has influenced abortion politics and law discussions of Operation Rescue and official statements on abortion by the Catholic Church and several Protestant denominations Researchers as well as anyone interested in the moral and religious elements of abortion will find this resource invaluable It covers the literature on abortion and religion found in books essays journal articles academic dissertations and Web sites And unlike many of the available bibliographies this one focuses only on the religious and moral issues therefore providing greater depth on those two issues within one work *Life Choices* Linda Weber,2011-10-16 *Life Choices* is a bold exploration of the spiritual essence of abortion the historical context for it and how it leads us to live with more awareness Abortion has lessons to teach everyone about making conscious choices in our lives and opens the way to a greater connection with love death power and all life The essentially pro life nature of abortion asks us to accept death as part of the flow of life The failure to understand this contributes to the ferocious abortion wars

Pro-Life Pulpit Stephen Tu,2011-05-23 Over one million unborn children are intentionally aborted every year in North

America Voiceless and helpless their blood cries out Will those of us who serve as pastors and preachers respond from our pulpits Silence is not an option We cannot keep quiet while thousands of our neighbors made in the image of God are being led to the slaughter every day But neither should we condemn and vilify those who are complicit in their deaths A truly pro life pulpit ministry opposes the injustice of abortion with truth courage and understanding Tears mingled with hope overflowing with grace After all the Christian faith is rooted in the good news of a Messiah who was once an embryo Nine months before he was born Jesus was conceived by the Holy Spirit and for the next forty weeks he lived and grew in the womb of an unwed teenaged mother He is at the heart of our preaching and this book will show you how to confront the sin of abortion by proclaiming the God who became abortable in order to save sinners [The Abortion Resource Handbook](#) K. Kaufmann,1997-07-16 The Abortion Resource Handbook covers such issues as finding a safe pro choice clinic dealing with parental consent and other restrictive laws dealing with anti choice protesters and more Includes a summary of state laws and a listing of pro choice organizations nationwide Line drawings *Taking Back God* Leora Tanenbaum,2025-10-16 In *Taking Back God* Leora Tanenbaum recounts the stories of women across the United States starting with herself who love their religion but hate their second class status within it If you ve witnessed the preferential treatment of men in America s houses of worship you will not be surprised to learn that there is a surge of women in this country rising up and demanding religious equality More and more religious women Christian Muslim and Jewish are declaring that they expect to be treated as equals in the religious sphere They want the same meaningful spiritual connections enjoyed by their brothers fathers husbands and sons They embrace the word of God but are critical of their faith s male oriented theology and liturgy They reject the conventional interpretations of religious traditions that give women a different and to their minds lesser status Rather than abandoning their faith they are taking it back and making it stronger transforming religion while maintaining tradition Tanenbaum relates the experiences of Catholics evangelical and mainline Protestants Muslims and observant Jews The conflict they face honoring tradition while expanding it to synchronize with modern values is ultimately one that all people of faith grapple with today **Secular Faith** Mark A. Smith,2015-09-11 When Pope Francis recently answered Who am I to judge when asked about homosexuality he ushered in a new era for the Catholic church A decade ago it would have been unthinkable for a pope to express tolerance for homosexuality Yet shifts of this kind are actually common in the history of Christian groups Within the United States Christian leaders have regularly revised their teachings to match the beliefs and opinions gaining support among their members and larger society Mark A Smith provocatively argues that religion is not nearly the unchanging conservative influence in American politics that we have come to think it is In fact in the long run religion is best understood as responding to changing political and cultural values rather than shaping them Smith makes his case by charting five contentious issues in America s history slavery divorce homosexuality abortion and women s rights For each he shows how the political views of even the most conservative Christians evolved in the same direction as the rest of

society perhaps not as swiftly but always on the same arc During periods of cultural transition Christian leaders do resist prevailing values and behaviors but those same leaders inevitably acquiesce often by reinterpreting the Bible if their positions become no longer tenable Secular ideas and influences thereby shape the ways Christians read and interpret their scriptures So powerful are the cultural and societal norms surrounding us that Christians in America today hold more in common morally and politically with their atheist neighbors than with the Christians of earlier centuries In fact the strongest predictors of people s moral beliefs are not their religious commitments or lack thereof but rather when and where they were born A thoroughly researched and ultimately hopeful book on the prospects for political harmony *Secular Faith* demonstrates how over the long run boundaries of secular and religious cultures converge *Bearing Witness* Karen O'Donnell, Katie Cross, 2022-08-31 Much like theology itself the experience of trauma has the potential to reach into almost any aspect of life refusing to fit within the tramlines A follow up to the 2020 volume *Feminist Trauma Theologies* *Bearing Witness* explores further into global intersectional and as yet relatively unexplored perspectives With a particular focus on poverty gender and sexualities race and ethnicity and health in dialogue with trauma theology the book seeks to demonstrate both the far reaching and intersectional nature of trauma encouraging creative and ground breaking theological reflections on trauma and constructions of theology in the light of the trauma experience A unique set of insights into the real life experience of trauma the book includes chapters authored by a diverse group of academic theologians practitioners and activists The result is a theology which extend far into the public square
