Absolutely Positively Gundog Training Positive Training For Your Retriever Gundog:

Absolutely Positively Gundog Training Robert Milner, 2015 Traditional gundog training is based on compulsion and rooted in a picture of the dog's nature as similar to a wolf with much emphasis on dominance and subordination. Milner turns that theory upside down citing research which finds that wolf packs operate in cooperative family groups with minimal factors of dominance. Dogs, Milner believes, learn much faster with a cooperative training model. Milner has chucked compulsion and embraced reward as the primary training tool. He gives the reader a simple, reasonable, easy-to-perform training model. His extensive practical experience leads him to condense gundog training down to a few critical behaviors. Milner gives the reader clear, concise instructions producing those behaviors to develop an excellent gundog who excels also as a family dog. This is a book on how to manage the strong instincts of retrievers and influence them to work for you and with you to produce a valuable companion that enhances your outdoors experience, be it hunting ducks or fishing for trout or hiking in the back country.
