

An emergency release button, incorporated in the system, is located on the left handle grip of the pilot's control wheel. This button can be quickly depressed to deactivate the system in case of a malfunction in the system. The system will remain deactivated only while the button is being held in the depressed position.

AILERON TRIM

The aileron trim control, located on the lower center console, is provided to displace the ailerons for trimming purposes. Displacement is maintained by cable loads imposed by the trimmer.

INSTRUMENT PANEL

The standard instrument panel consists of eight, navigation, and engine instruments on the left, and an avionics section on the right.

The lower left subpanel contains the switches for control of the battery and alternators, magneto/STAN and prime, lights, environmental, and optional equipment. Also contained on the left subpanel are the auxiliary fuel pump switches, instrument air gauge, landing gear control switch and gear indicator lights.

Located on the lower right subpanel are the rheostat switches for the instrument flood and post lights, parking brake control knob, flap switch, and flap position indicator. All of the circuit breakers, that are associated with the various placarded systems, are also located on the lower right subpanel.
