Being Mortal Atul Gawande, 2014-10-07 1 New York Times Bestseller In *Being Mortal* bestselling author Atul Gawande tackles the hardest challenge of his profession how medicine can not only improve life but also the process of its ending Medicine has triumphed in modern times transforming birth injury and infectious disease from harrowing to manageable But in the inevitable condition of aging and death the goals of medicine seem too frequently to run counter to the interest of the human spirit Nursing homes preoccupied with safety pin patients into railed beds and wheelchairs Hospitals isolate the dying checking for vital signs long after the goals of cure have become moot Doctors committed to extending life continue to carry out devastating procedures that in the end extend suffering Gawande a practicing surgeon addresses his profession's ultimate limitation arguing that quality of life is the desired goal for patients and families Gawande offers examples of freer more socially fulfilling models for assisting the infirm and dependent elderly and he explores the varieties of hospice care to demonstrate that a person's last weeks or months may be rich and dignified Full of eye opening research and riveting storytelling *Being Mortal* asserts that medicine can comfort and enhance our experience even to the end providing not only a good life but also a good end

Being Mortal Atul Gawande, 2014 In *Being Mortal* Gawande examines his experiences as a surgeon as he confronts the realities of ageing and dying in his patients and in his family as well as the limits of what he can do And he emerges with story that crosses the globe and history exploring questions that range from the curious to the profound What happens to people's teeth as they get old Did human beings really commit senicide the sacrifice of the elderly Why do the aged so dread nursing homes and hospitals How should someone give another person the dreadful news that they will die This is a story told only as Atul Gawande can penetrating people's lives and also the systems that have evolved to govern our mortality Those systems he observes routinely fail to serve or even acknowledge people's needs and priorities beyond mere survival And the consequences are devastating lives families and even whole economies But as he reveals it doesn't have to be this way Atul Gawande has delivered an engrossing tale of science history and remarkable characters in the vein of Oliver Sacks
