Transformations Mark Blyth, 2002-09-16 This book picks up where Karl Polanyi's study of economic and political change left off. Building upon Polanyi's conception of the double movement, Blyth analyzes the two periods of deep-seated institutional change that characterized the twentieth century: the 1930s and the 1970s. Blyth views both sets of changes as part of the same dynamic. In the 1930s, labor reacted against the exigencies of the market and demanded state action to mitigate the market's effects by embedding liberalism. In the 1970s, those who benefited least from such embedding institutions, namely business, reacted against these constraints and sought to overturn that institutional order. Blyth demonstrates the critical role economic ideas played in making institutional change possible. *Great Transformations* rethinks the relationship between uncertainty, ideas, and interests, achieving profound new insights on how and under what conditions institutional change takes place.

Transformations of Lamarckism Snait Gissis, Eva Jablonka, 2011 A reappraisal of Lamarckism, its historical impact, and contemporary significance.

The Spirit Book Raymond Buckland, 2005-09-01 Never say die. Can the living communicate with the dead? Many believe that spirits are constantly about us and that it is possible through a variety of means to speak to them and to have them speak to us. *The Spirit Book: The Encyclopedia of Clairvoyance, Channeling, and Spirit Communication* looks at these methods of communication, their history, and the personalities involved throughout the past three hundred years of this eternal quest. The fascinating history of Spiritualism is coaxed into the material realm as the object of this perceptive and sweeping overview by that legendary author of the occult and supernatural, Raymond Buckland. Drawing on decades of research, writing, and transcendence, he describes sundry methods of channeling events associated with Spiritualism, including séances and exorcism; organizations focused on clairvoyance and a colorful host of mortals, famous and infamous, who delved into Spiritualism. Nostradamus, Helena Blavatsky, and Edgar Cayce receive their due, as well as Joan of Arc, William Blake, Susan B. Anthony, Winston Churchill, Arthur Conan Doyle, Mahatma Gandhi, Harry Houdini, and Mae West. Look up and see her sometime. *The Spirit Book* explores Qabalah, Sibyls, Fairies, Poltergeists, phenomena such as intuition and karma, objects useful in the attempt to cross the divide, including tarot cards, flower reading, and runes, and related practices such as Shamanism, transfiguration, meditation, and mesmerism. This comprehensive reference also reports on investigations of contemporary manifestations, including electronic voice phenomena and spirit appearances on TV screens, plus channeling, fraud, psychic research, and possession. Containing more than 500 entries and 100 illustrations, this fun, fact-filled tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.
