Beyond Postprocess:

Beyond Postprocess Sidney I. Dobrin, J.A. Rice, Michael Vastola, 2011-06-30 Beyond Postprocess offers a vigorous provocative discussion of postprocess theory in its contemporary profile Fueled by something like a fundamental refusal to see writing as self evident reducible and easily explicable the contributors rethink postprocess suggesting that there is no easily defined moment or method that could be called postprocess Instead each contribution to this collection provides a unique and important example of what work beyond postprocess could be Since postprocess theory in writing studies first challenged traditional conceptions of writing and the subject who writes developments there have continued to push theorists of writing in a number of promising theoretical directions Spaces for writing have arisen that radically alter ideological notions of space rational thinking intellectual property and politics and epistemologies and new media digital and visual rhetorics have increasingly complicated the scene as well Contributors to Beyond Postprocess reconsider writing and writing studies through posthumanism ecology new media materiality multimodal and digital writing institutional critique and postpedagogy Through the lively and provocative character of these essays Beyond Postprocess aims to provide a critical site for nothing less than the broad reevaluation of what it means to study writing today Its polyvocal considerations and conclusions invest the volume with a unique potential to describe not what that field of study should be but what it has the capacity to create The central purpose of Beyond Postprocess is to unleash this creative potential *Beyond Postprocess and Postmodernism* Theresa Jarnagi Enos, Keith D. Miller,Jill McCracken,2003-01-30 Annotation Volume illuminates many of the tensions present in the field of rhetoric and composition studies explaining the scope and role of rhetoric in contemporary scholarship For scholars and other individuals interested in rhetoric and composition studies P **Beyond Conversation** William Duffy,2021-01-04 Collaboration was an important area of study in writing for many years but interest faded as scholars began to assume that those working within writing studies already got it In Beyond Conversation William Duffy revives the topic and connects it to the growing interest in collaboration within digital and materialist rhetoric to demonstrate that not only do the theory pedagogy and practice of collaboration need more study but there is also much to be learned from the doing of collaboration While interrogating the institutional politics that circulate around debates about collaboration this book offers a concise history of collaborative writing theory while proposing a new set of commonplaces for understanding the labor of coauthorship Specifically Beyond Conversation outlines an interactionist theory that explains collaboration as the rhetorical capacity that manifests in the discursive engagements coauthors enter into with the objects of their writing Drawing on new materialist philosophies post

qualitative inquiry and interactionist rhetorical theory Beyond Conversation challenges writing and literacy educators to recognize the pedagogical benefits of collaborative writing in the work they do both as writers and as teachers of writing The book will reinvigorate how teachers scholars and administrators advocate for the importance of collaborative writing in their work *Strategies for Writing Center Research* Jackie Grutsch McKinney,2015-09-15 Strategies for Writing Center Research is a how to guide for conducting writing center research introducing newcomers to the field to the methods for data collection analysis and reporting appropriate for writing center studies [Upsetting Composition Commonplaces](#) Ian Barnard,2014-07-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition s refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

Participatory Composition Sarah J. Arroyo,2013-07-25 Like Share Comment Subscribe Embed Upload Check in The commands of the modern online world relentlessly prompt participation and encourage collaboration connecting people in ways not possible even five years ago This connectedness no doubt influences college writing courses in both form and content creating possibilities for investigating new forms of writing and student participation In this innovative volume Sarah J Arroyo argues for a participatory composition inspired by the culture of online video sharing and framed by theorist Gregory Ulmer s concept of electracy Electracy according to Ulmer is to digital media what literacy is to alphabetic writing Although electracy can be compared to digital literacy it is not something shut on and off with the power buttons on computers or mobile devices Rather electracy encompasses the cultural institutional pedagogical and ideological implications inherent in the transition from a culture of print literacy to a culture saturated with electronic media regardless of the presence of actual machines Arroyo explores the apparatus of electracy in many of its manifestations while focusing on the participatory practices found in online video culture particularly on YouTube Chapters are devoted to questions of subjectivity definition authorship and pedagogy Utilizing theory and incorporating practical examples from YouTube classrooms and other social sites Arroyo presents accessible and practical approaches for writing instruction Additionally she outlines the concept of participatory composition by highlighting how it manifests in online video culture offers student

examples of engagement with the concept and advocates participatory approaches throughout the book Arroyo presents accessible and practical possibilities for teaching and learning that will benefit scholars of rhetoric and composition media studies and anyone interested in the cultural and instructional implications of the digital age **What is the New**

Rhetoric? Susan E. Thomas, 2009-03-26 The Age of Information has spawned a critical focus on human communication in a multimedia world particularly on theories and practices of writing With the worldwide web impacting increasingly on academic and business communication the need has never been greater for advanced study in writing communication and critical thinking across all genres sectors and cultures In recent decades the definitions of new rhetoric have expanded to encompass a variety of theories and movements raising the question of how rhetoric is understood and employed in the twenty first century The essays collected here represent variations on these themes with each attempting to answer the title s deliberately provocative question addressing particularly How the classical art of rhetoric is still relevant today How it is directly related to modern technologies and the new modes of communication they have generated How rhetorical practice is informing research methodologies and teaching and learning practices in the contemporary academy **Sociocultural and Power-Relational Dimensions of Multilingual Writing** Amir Kalan, 2021-05-14 This book examines the writing practices of three adult multilingual writers through the prism of their writing in English as an additional language It illustrates some of the social cultural and political contexts of the writers literacy activities and discusses how these impact their literate and intellectual lives It reflects on the para and meta textual dimensions of writing because organic writing practices are almost always performed within sociocultural and power relational contexts In our highly compartmentalized educational structures writing education has been severed from those organic components focusing mainly on writing stylistics This book proposes creating space for organic writing practices in our everyday writing pedagogies and argues for a writing pedagogy that acknowledges the complex interactions of social emotional and identity related layers of writing
