Becoming An Embedded Librarian Making Connections In The Classroom:

Becoming an Embedded Librarian Michelle Reale, 2015-09-01 Embedded librarianship is not one size fits all yet many books on the subject treat it in a cold objective manner that doesn't adequately communicate how becoming an embedded librarian actually works in the real world Here Reale shares her own university classroom experiences to offer a step by step primer for those contemplating the practice Demystifying what can sometimes feel intimidating to academic librarians this down to earth resource defines what embedded librarianship is and isn't explains why being in the classroom is so important and how it creates communities of learning shows how to clarify the role of the librarian in a classroom by being a facilitator of process offers strategies for relationship building setting goals and honing a teaching style and discusses embedded librarianship and branding Readers will feel confident applying the lessons learned from Reale's first hand account to their own experiences both in and out of the classroom
