Stereoblind Emma Healey, 2018-04-07 In Stereoblind no single thing is ever perceived in just one way Shot through with asymmetry and misconception the prose poems in Emma Healey's second collection describe a world that's anxious and skewed but still somehow familiar where the past present and future overlap facts are not always true borders are not always solid and events seem to write themselves into being An on again off again real estate sale nudges a quartet of millennial renters into an alternate universe of multiplying signs and wonders an art show at Ontario Place may or may not be as strange and complex or even as real as described the collusion of a hangover and a blizzard carry our narrator on a trancelike odyssey through Bed Bath Beyond Using a diverse range of subjects from pharmaceutical research testing to Tinder to form an inventory of ontological disturbance Healey delves moments when the differences between things disappear and life exceeds its limits

It's Not You Sara Eckel, 2014-01-07 Why am I still single If you're single and searching there's no end to other people's explanations excuses and criticism explaining why you haven't found a partner You're too picky Just find a good enough guy and you'll be fine You're too desperate If men think you need them they'll run scared You're too independent Smart ambitious women always have a harder time finding mates You have low self-esteem You can't love someone else until you've learned to love yourself You're too needy You can't be happy in a relationship until you've learned to be happy on your own Based on one of the most popular Modern Love columns of the last decade Sara Eckel's *It's Not You* challenges these myths encouraging singletons to stop picking apart their personalities and to start tapping into their own wisdom about who and what is right for them Supported by the latest psychological and sociological research as well as interviews with people who have experienced longtime singledom Eckel creates a strong and empowering argument to understand and accept that

Supercapitalism Robert B. Reich,2007-09-04 From one of America s foremost economic and political thinkers comes a vital analysis of our new hypercompetitive and turbo charged global economy and the effect it is having on American democracy With his customary wit and insight Reich shows how widening inequality of income and wealth heightened job insecurity and corporate corruption are merely the logical results of a system in which politicians are more beholden to the influence of business lobbyists than to the voters who elected them Powerful and thought provoking Supercapitalism argues that a clear separation of politics and capitalism will foster an enviroment in which both business and government thrive by putting capitalism in the service of democracy and not the other way around

Hearts of the City Herbert

Muschamp,2013-12-11 From the late Herbert Muschamp the former architecture critic of The New York Times and one of the most outspoken and influential voices in architectural criticism a collection of his best work The pieces here from The New Republic Artforum and The New York Times reveal how Muschamp s views were both ahead of their time and timeless He often wrote about how the right architecture could be inspiring and uplifting and he uniquely drew on film literature and popular culture to write pieces that were passionate and often personal changing the landscape of architectural criticism in the process These columns made architecture a subject accessible to everyone at a moment when because of the heated debate between modernists and postmodernists architecture had become part of a larger public dialogue One of the most courageous and engaged voices in his field he devoted many columns at the Times to the lack of serious new architecture in this country and particularly in New York and spoke out against the agenda of developers He departed from the usual dry didactic style of much architectural writing to playfully for example compare Frank Gehry s Guggenheim Bilbao to the body of Marilyn Monroe or to wax poetic about a new design for Manhattan s manhole covers One sees in this collection that Muschamp championed early on the work of Frank Gehry Rem Koolhaas Zaha Hadid Thom Payne Frank Israel Jean Nouvel and Santiago Calatrava among others and was drawn to the theoretical writings of such architects as Peter Eisenman Published here for the first time is the uncut version of his brilliant and poignant essay about gay culture and Edward Durrell Stone s museum at 2 Columbus Circle Fragments from the book he left unfinished whose title we took for this collection A Dozen Years Metroscope and Atomic Secrets are also included Hearts of the City is dazzling writing from a humanistic thinker whose work changed forever the way we think about our cities and the buildings in them
