In this memoir Burke weaves childhood adolescent and other personal experiences with the latest information on brain development to provide insight as to how one's experiences influence whom that person becomes. From the moment of one's first breath one's experiences are unique. He discusses that who one becomes is driven by the interplay of genetics expression of those genes and cognitive socio economic influences. Beyond the Quest to Become a Physician shares some challenges knowledge character changes distractions and revelations that Dr Burke experienced. Therein he provides insight not only to the quest but also to the profession. Through his inspirational and true tales he helps others to envision how parenting goal setting perseverance and character create the difference between success and failure.
