Social Casework , 1983 **Improving Student Learning at Scale** Keston H. Fulcher, Caroline Prendergast, 2023-07-03 This book is a step by step guide for improving student learning in higher education The authors argue that a fundamental obstacle to improvement is that higher educators administrators and assessment professionals do not know how to improve student learning at scale By this they mean improvement efforts that span an entire program affecting all affiliated students The authors found that faculty and administrators particularly struggle to conceptualize and implement multi section multi course improvement efforts It is unsurprising that ambitious wide reaching improvement efforts like these would pose difficulty in their organization and

implementation This is precisely the problem the authors address The book provides practical strategies for learning improvement enabling faculty to collaborate and integrating leadership social dynamics curriculum pedagogy assessment and faculty development In Chapter 2 the authors tell a program level improvement story from the perspective of a faculty member Chapter 3 inverts Chapter 2 Beginning from the re assess stage the authors work their way back to the individual faculty member first pondering whether she can do something to impact students skills They peel back each layer of the process and imagine how learning improvement efforts might be thwarted at each stage Chapters 4 through 9 dig deeper into the learning improvement steps introduced in Chapters 2 and 3 Each chapter provides strategies to help higher educators climb each step successfully Chapter 10 paints a picture of what higher education could look like in 2041 if learning improvement were embraced And finally Chapter 11 describes what you can do to support the movement
