Five Big Questions in Life Miriam Pia, 2012-10 gives the reader a basic description of philosophy and explains how to use it to answer the five most important questions in life Included are basic mental exercises that everyone can do that will help the reader to practice philosophy Page 4 of cover **Philosophy of Life Instinct** Shashidhar Sastry, 2022-01-06 What if there is one source of answers to all existential questions of our origin lives and behaviour What if this source provides a practical and reliable understanding of right and wrong intelligence and wisdom in every situation The Philosophy of Life Instinct by Shashidhar Sastry uncovers this source It takes you on a journey of discovery unlike any other to its diverse effects It is a path for anyone who has ever been curious about existence reality life and happiness that is to say all humans and other thinking beings anywhere in the cosmos **The Lonely Mind of God** Sherman O'Brien, 2021-01-26 Current students of philosophy or armchair philosophers Want the answer to the Primordial Existential Question Why is there something rather than nothing While history has produced no shortage of attempted answers clearly none is the answer Now comes the unique perspective of acosmism to provide a complete and plausible answer After a lifetime of reflection acosmist Sherman O'Brien offers this analysis of the issues and a thoughtful reasoned answer to philosophy's most vexing question The acosmic answer requires no faith whatsoever either in supernatural or unexplained causes in fact it discourages it Acosmism rejects both traditional religion and philosophically neglectful science As a metaphysical system it is based on an epistemological insight with implications for immortality determinism ethics and ultimate purpose Reasoned wholly from the ground up its conclusion is the very meaning of existence The solution to the Omniscience Riddle becomes the key to understanding how the question is best stated and understood This book represents one person's effort to make sense of what is true and what only seems to be so Why is there something rather than nothing What is your potential role in the entirety of experience This foray into acosmism offers a path to the genuine understanding of both existence and reality Note the main text constitutes roughly two thirds of the total pages the remainder being mostly endnotes **The Answers Lie Within Us** Alistair Sinclair, 2017-07-05 This book suggests that religion in its usual sense can be replaced by something better than the human spirit or subjectivity can be the subject of scientific study and that lack of purpose or design in the universe is not a handicap but a positive opportunity for intelligent beings to make of the universe and its contents what they reasonably can The book breaks new ground in suggesting a radical alternative to religion It offers a scientific and humanist alternative to religion which appeals to people's critical faculties rather than emotions or intuitions It also challenges current views of causation and the principle of sufficient reason by stressing the subjectivity of our reasoning powers and clarifying these in relation to an independent external reality It develops and elaborates a notion of the noosphere within a theoretical system this enables the notion to assume a scientific importance which it currently lacks because it is treated as an isolated eccentric and rather mystical idea **What's It All About?** Julian Baggini, 2020-03-31 Secular minded readers seeking an

alternative to The Purpose Driven Life have an excellent starting point here Publishers Weekly For readers who are serious about confronting the big issues in life but are turned off by books which deal with them through religion spirituality or psychobabble this is an honest intelligent discussion by a philosopher that doesn't hide from the difficulties or make undeliverable promises It aims to help the reader understand the overlooked issues behind the obvious questions and shows how philosophy does not so much answer them as help provide us with the resources to answer them for ourselves Useful and provocative The Wall Street Journal Looking for a clear guide to what contemporary philosophy has to say about the meaning of life Baggini takes us through all the plausible answers weaving together Kierkegaard John Stuart Mill Monty Python and Funkadelic in an entertaining but always carefully reasoned discussion Peter Singer author of How Are We To Live The question of the meaning of life has long been a byword for pretentious rambling It takes some nerve to tackle it in a brisk and no nonsense fashion New Statesman **What's It All About?** Richard de la Chaumiere,2004-01-15 An engaging and impartial guide for readers who want to make up their own minds about some of the big questions of life and would like to learn many of the diverse answers from philosophy science psychology and Eastern and Western spiritual traditions Lucid and lively the book is written in a style understandable and appealing to the general reader [In Search of Answers](#) Robert Collins,2012-02-01 Ever since man has had the ability to reason we have asked why Why do we exist Is there a God Is there a heaven Is there a hell What happens to us after death Do we have a soul When I was a child attending parochial school my understanding of God heaven hell and what our souls are were clouded in mystery I asked for clarification but no one could adequately explain away these mysteries I spent nearly 45 years developing the thoughts presented here to help me believe Now I wish to share them with the world **You will never be free** Andreas Müller,2019-07-23 You will never be free because there is no you which is imprisoned Freedom is all there is one could say yet there is no one apart to be aware of it In that sense everything is naturally and beautifully itself Everything is absolutely realized already
