Managing successful projects with PRINCE2 Great Britain. Office of Government Commerce, 2009-06-08 This book provides a universally applicable project management method the principles processes and techniques that enable individuals and organisations successfully to deliver their projects within time cost and quality constraints This new edition has been designed to place more emphasis on the principles that underpin successful project management and to provide clear guidance on how to apply these principles to the organisational context within which projects are operating

Commercial Management David Lowe, 2013-08-05 Commercial Management theory and practice defines the role of commercial management within project oriented organisations providing a framework for and helping to develop a critical understanding of the factors that influence commercial management practice It also identifies generic aspects of this practice and provides a theoretical foundation to these activities by reference to existing and emergent theories and concepts as well as to relevant management best practice The book is structured into four parts Part 1 Introduction Commercial Management in Project Environments explores the nature of commercial practice within project oriented organisations at the buyer seller interface It presents a Commercial Management framework which illustrates the multiple interactions and

connections between the purchaser's procurement cycle and a supplier's bidding and implementation cycles. Additionally, it outlines the principle activities undertaken by the commercial function, identifies the skills and abilities that support these activities, and reviews the theories and concepts that underpin commercial practice. Finally, it identifies areas of commonality of practice with other functions found within project-oriented organisations, plus sources of potential conflict and misunderstanding. Part 2: Elements of Commercial Theory and Practice covers commercial leadership, exploring strategy, risk and uncertainty management, financial decision making, and key legal issues. Part 3: Approaches to Commercial Practice addresses best practice management and commercial and contracting strategies and tactics. Finally, Part 4: Case Studies offers two extended case studies: Football Stadiums: the Millennium Stadium, Cardiff; the Emirates Stadium, Islington; and Wembley Stadium, London; and Heathrow Terminal 5. The book provides a one-stop shop to the many topics that underpin commercial management practice from both a demand-buy side and a supply-sell side perspective. It will help develop an understanding of the issues influencing commercial management: leadership, strategy, risk, financial, legal, best practice, management, and commercial and contracting strategy and tactics. This book's companion website is at www.wiley.com/go/lowecommercialmanagement and offers invaluable resources for both students and lecturers: PowerPoint slides for lecturers on each chapter; sample exam questions for students to practice; weblinks to key journals and relevant professional bodies.

Improving project performance using the PRINCE2 maturity model (P2MM) Andy Murray, Mike Ward, 2007-07-31. The purpose of the guide is to help organisations gain full value from the PRINCE2 method by providing practical advice on using its Maturity Model P2MM. The guide shows how P2MM can be used to help implement PRINCE2 for first-time users, reinvigorate existing implementations, help organisations improve their project performance as a benchmark to assess organisational capability, and plan improvements as a means of gaining external recognition for organisational capability and as part of a wider goal to improve Portfolio Programme and Project Management performance.

Tomorrow's Learning: Involving Everyone. Learning with and about Technologies and Computing Arthur Tatnall, Mary Webb, 2018-01-25. This book constitutes the refereed post-conference proceedings of the 11th IFIP TC 3 World Conference on Computers in Education WCCE 2017 held in Dublin, Ireland, in July 2017. The 57 revised full papers and 10 short papers were carefully reviewed and selected from 116 submissions during two rounds of reviewing and improvement. The papers are organized in the following topical sections: futures of technology for learning and education; innovative practices with learning technologies and computer science education and its future focus and development. Also included is The Dublin Declaration, which identifies key aspects of innovation, development, successes, concerns, and interests in relation to ICT and education.
