

The background of the cover is a complex, abstract network diagram. It consists of numerous small, colored circles (nodes) in shades of blue, orange, purple, and red, connected by a dense web of thin, grey lines. Some nodes are larger than others, and some are highlighted with dashed lines or larger, semi-transparent circles. The overall effect is one of interconnectedness and data flow.

These stakeholders can pool their resources, knowledge and expertise by working together to create innovative solutions that benefit the environment and society. The collaboration also helps ensure that all stakeholders are on the same page regarding sustainability goals and objectives. By building relationships and trust between stakeholders, collaboration can help to create a more sustainable future.

Innovative Technology Goal 5.0 focuses on using technology to improve access to education and foster a culture of innovation and creativity. It seeks to create a more equitable and inclusive learning environment by providing access to digital tools and resources for all students regardless of background or ability. It also seeks to promote technology to support the development of 21st century skills such as critical thinking, problem solving and collaboration. Finally, it aims to ensure that technology is used to support the development of a safe and secure learning environment while encouraging responsible and ethical use.

VOCATIONAL 5.0 is a collaborative effort to promote sustainable development and innovative technology goals. It is designed to bring together experts from various fields including business, education, government and the non-profit sector to identify and develop innovative solutions to global challenges. Through the use of data-driven decision making and the application of new technologies, VOCATIONAL 5.0 seeks to create a more sustainable and equitable world. The initiative also aims to foster collaboration between stakeholders, create a platform for knowledge sharing and promote the use of technology to drive social, economic and environmental progress. By leveraging the collective expertise of its members, VOCATIONAL 5.0 is committed to achieving its sustainable development and innovative technology goals.

This ICVEAST aims to be a respected international forum to discuss the recent improvement and challenges in Vocational Education nowadays and in the future from the research insight mainly applied research in the field of administration and business, health science, social humanities and engineering. The event will gather representatives from different countries, diverse areas of knowledge and lots of education research, public institutions and organizations. The conference is devised as a space to exchange ideas and discuss the challenges that education and manufacturing face in preparing human capabilities to shift into the current trend of automation and the role of advanced technologies in those challenges. We intend to have an interactive conference through these three different sessions: business talks, keynote and parallel presentation sessions.
