Xinghua Liu, Michael Hebert, Rui A. Alves, 2023-09-30 This book brings together the work of established scholars from around the world to celebrate and honor the many ways in which Steve Graham has contributed to the advancement of teaching and researching writing. Focusing on writing development and writing instruction in different contexts of education, original contributions in this book critically engage with theoretical and empirical issues raised in Steve Graham's influential body of work and significantly extend our understandings of the importance of writing in developing learners' literacy and the roles of writing in teaching and learning processes. This book is organized around themes central to Steve Graham's work, including theories and models of writing, effective instructional methods in teaching writing, surveys on teaching and learning writing, and systematic review studies on writing. Apart from regular chapters, the book also features personal and scholarly reflections revealing the powerful ways in which Steve Graham's work has influenced our thinking in the field of writing research and continues to open up new avenues for future research endeavors.

Assessing Academic Programs in Higher Education Mary J. Allen, 2003-12-15 Higher education professionals have moved from teaching to learning-centered models for designing and assessing courses and curricula. Faculty work collaboratively to identify learning objectives and assessment strategies, set standards, design effective curricula, and courses assess the impact of their efforts on student learning, reflect on results, and implement appropriate changes to increase student learning. Assessment is an integral component of this learner-centered approach, and it involves the use of empirical data to refine programs and improve student learning. Based on the author's extensive experience conducting assessment training workshops, this book is an expansion of a workshop consultation guide that has been used to provide assessment training to thousands of busy professionals. *Assessing Academic Programs in Higher Education* provides a comprehensive introduction to planning and implementing the assessment of college and university academic programs. Written for college and university administrators, assessment officers, department chairs, and faculty who are involved in developing and implementing assessment programs, this book is a realistic, pragmatic guide for developing and implementing meaningful, manageable, and sustainable assessment programs that focus faculty attention on student learning. This book will guide readers through all steps in the assessment process. Provide a balanced review of the full array of assessment strategies. Explain how assessment is a crucial component of the teaching and learning process. Provide examples of successful studies that can be easily adapted. Summarize key assessment terms in an end-of-book glossary.
