This is the most comprehensive catalog of educational technology. If you like the concepts of universal design for learning, this book will bring you to the next level with technology. The book outlines the very best educational technology to reach special education students, diverse learners, and engage all students in the learning process. There is a new generation of low-cost technology to help reach challenging students like never before. This gives teachers countless tools to include in your UDL toolbox and enhances your teaching.

Apps for Librarians Nicole Hennig, 2014-09-24 How can your library and your patrons benefit from mobile apps? This guidebook offers a solid foundation in app literacy, supplying librarians with the knowledge to review and recommend apps, offer workshops, and become the app expert for their communities. Smartphones and other mobile devices that support downloadable applications, universally referred to as apps, can be used to foster productivity, conduct research, or read and study. Additionally, savvy librarians can better serve their communities by gaining expertise in mobile technologies and being qualified to make app recommendations to patrons. This book introduces you to the apps that can help you save time and increase your own productivity, as well as serve as a curator and reviewer of apps and resident expert to benefit your patrons.

Apps for Librarians: Using the Best Mobile Technology to Educate, Create, and Engage will save you from wading through and learning about the millions of apps available today and direct you to the very best apps in areas important to education, the workplace, and professional development. Organized by function—reading, writing, reference, multi-media, and productivity—apps are profiled with the following information: title, developer, price, platforms, general description, examples of use, and key features that make it worthwhile for learning and creative work.
