Nessel, 2012 *The Battle for Bonhoeffer* Stephen R. Haynes, 2018-09-13 The figure of Dietrich Bonhoeffer 1906 1945 has become a clay puppet in modern American politics Secular radical liberal and evangelical interpreters variously shape and mold the martyr s legacy to suit their own pet agendas Stephen Haynes offers an incisive and clarifying perspective A recognized Bonhoeffer expert Haynes examines populist readings of Bonhoeffer including the acclaimed biography by Eric Metaxas Bonhoeffer Pastor Martyr Prophet Spy In his analysis Haynes treats among other things the November 2016 election of Donald Trump and the Bonhoeffer moment announced by evangelicals in response to the US Supreme Court s 2015 decision to legalize same sex marriage The Battle for Bonhoeffer includes an open letter from Haynes pointedly addressing Christians who still support Trump Bonhoeffer s legacy matters Haynes redeems the life and the man **The Informal Construction of Europe** Lennaert van Heumen, Mechthild Roos, 2019-01-10 Informal dimensions of European integration have received limited academic attention to date despite their historical and contemporary importance Particularly studies in European integration history while frequently mentioning informal processes have as yet rarely conceptualised the study of informality in European integration and thus fail usually to systematically analyse conditions impact and consequences of informal action Including case studies that discuss both successful and failed examples of informal action in European integration this book assembles cutting edge research by both early career and more experienced scholars from all over Europe to fill this lacuna The chapters of this volume offer a guide to the study of informality and show how informality has impacted European integration history and the functioning of the EC EU as well as other European organisations in a variety of ways Reflecting the diversity of studies within this burgeoning field of research within and across several academic disciplines the book approaches the informal dimensions of European integration from different disciplinary methodological and thematic angles This book will be of key interest to students and scholars of European integration EU politics studies European politics European Union history and more broadly to comparative politics and international relations Modern Germany Wendell G.
