Rubin, 2015-01-28 Some of the best writings on public budgeting and finance can be found in the journals that ASPA publishes or sponsors For this volume editor Irene Rubin has brought together the best of these articles emerging classics that address the most important theoretical and practical problems underlying public budgeting The anthology is organized topically rather than historically with an effort to delineate the issues needed to understand some of the more recent controversies in the field Rubin s introductory essay and section openers frame the key issues and provide historical context for each article The collection begins with descriptions of what public budgeting is where it comes from and what it is for It moves on to the relationship between budget processes and outcomes constraints on budgeting the legal context in which it operates and adaptations to those constraints such as contracting out The book concludes with a discussion of the ethics and norms that underlie budgeting in a democracy Throughout the anthology the emphasis is on areas of disagreement and debate so students can get involved and explore different viewpoints The Age of Direct Citizen Participation Nancy C. Roberts, 2015-01-28 Citizen involvement is considered the cornerstone of democratic theory and practice Citizens today have the knowledge and ability to participate more fully in the political technical and administrative decisions that affect them On the other hand direct citizen participation is often viewed with skepticism even wariness Many argue that citizens do not have the time preparation or interest to be directly involved in public affairs and suggest instead that representative democracy or indirect citizen participation is the most effective form of government

Some of the very best writings on this key topic which is at the root of the entire reinventing government movement can be found in the journals that ASPA publishes or sponsors In this collection Nancy Roberts has brought together the emerging classics on the ongoing debate over citizen involvement Her detailed introductory essay and section openers frame the key issues provide historical context and fill in any gaps not directly covered by the articles More than just an anthology The Age of Direct Citizen Participation provides a unique and useful framework for understanding this important subject It is an ideal resource for any Public Administration course involving citizen engagement and performance management

Knowledge and Power in Public Bureaucracies David Carnevale, Camilla Stivers, 2019-07-08 Ever since Max Weber and Frederick Taylor public organizations have been told that effective practice lies in maximizing rationality through science Yet science based management reforms have had only marginal impact on performance People in entry level positions possess knowledge from direct experience of the work management knowledge is often science based and distanced from the work and appointed top executives struggle to join bureaucratic rationality with political exigencies Knowledge and Power in Public Bureaucracies From Pyramid to Circle offers fresh thinking about public organizations arguing that conflicting forms of knowledge may be found within the bureaucratic pyramid Answering the question of why management reforms over the past century have failed on their own terms this book examines the existence

of conflicting forms of knowledge within public bureaucracies how these contradictory perspectives interact or fail to interact and the ways in which these systems preserve managerial efforts to control workers Authors Carnevale and Stivers argue that bureaucratic rationality is not the one best way as Taylor promised and indeed there is no one best way or model that can be deployed in all situations The bureaucratic pyramid can however be made more effective by paying attention to circular processes that are widespread within the hierarchy the authors argue describing such circular processes as facework This book will serve as an ideal supplement to introductory public administration and organizational theory courses as well as courses for mid career professionals helping to frame their work experiences *Public Sector Performance*
