Research in Education ,1973 **Resources in Education** ,1997 **In Oceans Deep** Bill Streever,2019-07-02 In this masterful account in the spirit of Bill Bryson and Ian Frazier a longtime deep sea diver masterfully weaves together the science and history of Earth s last remaining frontier the sea In an age of unprecedented exploration and innovation our oceans remain largely unknown and endlessly fascinating full of mystery danger beauty and inspiration In Oceans Deep celebrates the daring pioneers who tested the limits of what the human body can endure under water free divers able to reach 300 feet on a single breath engineers and scientists who uncovered the secrets of decompression teenagers who built their own diving gear from discarded boilers and garden hoses in the 1930s saturation divers who lived under water for weeks at a time in the 1960s and the trailblazing men who voluntarily breathed experimental gases at pressures sufficient to trigger insanity Tracing both the little known history and exciting future of how we travel and study the depths Streever s captivating journey includes seventeenth century leather hulled submarines their nuclear powered descendants a workshop where luxury submersibles are built for billionaire clients and robots capable of roving unsupervised between continents revolutionizing access to the ocean In this far flung trip to the wild night dark place of shipwrecks trapped submariners oil wells innovative technologies and people willing to risk their lives while challenging the deep we discover all the adventures our seas have to offer and why they are in such dire need of conservation **Scientific and Technical Aerospace Reports** ,1995 Itec Asia 2001 iSmithers Rapra Publishing,2001-12-31 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1967 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June *The Worlds of Japanese Popular Culture* Dolores P. Martinez,1998-10-13 Dolores Martinez heads an international team of scholars in this lively discussion of Japanese popular culture The book s contributors include Japanese as well as British Icelandic and North American writers offering a diversity of views of what Japanese popular culture is and how it is best approached and understood They bring an anthropological perspective to a broad range of topics including sumo karaoke manga vampires women s magazines soccer and morning television Through these topics many of which have never previously been addressed by scholars the contributors also explore several deeper themes the construction of gender in Japan the impact of globalisation and modern consumerism and the rapidly shifting boundaries of Japanese culture and identity This innovative study will appeal to those interested in Japanese culture sociology and cultural anthropology Corpus Linguistics. Volume 2 Anke Lüdeling,Merja Kytö,2009-03-26 This handbook provides an up to date survey of the field of corpus linguistics a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade Corpus linguistics investigates human language by starting out from large collections of texts spoken written or recorded These language corpora which are now regularly available in electronic form are the basis for quantitative and qualitative research on almost any question of linguistic interest Many techniques that are

in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century when linguistics began to make use of mathematical and empirical methods Modern corpus linguistics has used and developed these methods in close connection with computer science and computational linguistics The handbook sketches the history of corpus linguistics shows its potential discusses its problems and describes various methods of collecting annotating and searching corpora as well as processing corpus data It also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics The over 60 articles included in the handbook are divided into five sections 1 the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics 2 corpus compilation 3 corpus types 4 preprocessing of corpora 5 the use and exploitation of corpora The final section gives an overview of the results of corpus studies obtained in phonetics phonology morphology syntax semantics sociolinguistics historical linguistics stylometry dialectology and discourse analysis It also reports on recent advances made in human and machine translation contrastive studies computer assisted language learning and automatic summarization The contributors to the volume are internationally known experts in their respective fields The handbook is intended for a wide audience ranging from teachers university students and scholars to anyone interested in the use of computers in linguistic analyses and applications
