scientific methods of accounting for heat and modern forms of acclimatization have desensitized us to climate change Ubiquitous air conditioning shifts in urban planning and changes in mobility all served as temporary remedies for escaping the heat in hotspots such as the twentieth century Middle East However all these measures have ultimately fuelled not only greenhouse gas emissions but also a collective myopia regarding the impact of rising temperatures Identifying the scientific abstractions and economic and cultural forces that have numbed our responses this book charts a way forward out of short term thinking and towards meaningful action

Diversity in Language Zaynab Ibrāhīm, Sabiha T. Aydelott, Nagwa Kassabgy, 2000 The Arabic and English languages have developed along separate lines over the centuries Thus it is no surprise that even apart from purely cultural elements there are distinctive characteristics of the two languages that pose particular problems to native speakers of one language attempting to learn the other The scholarly papers of Diversity in Language Contrastive Studies in Arabic and English Theoretical and Applied Linguistics offer new views on the contrasts between Arabic and English and on contemporary theoretical and applied linguistics Contributors focus on an array of elusive features that make the Arabic language especially difficult for English speakers to understand fully and intuitively Comparative studies of English and Arabic including research on the acquisition of Arabic or English as a second language underscore the concept of diversity Contributors to Diversity in Language also investigate stylistics a major source of diversity between the two languages Practical observations and suggestions may help teachers of Arabic or English as a second language enable students to better understand their second language and become more persuasive and effective in using it The papers assembled here will be a welcome addition to the bookshelves of scholars and students of Arabic contrastive rhetoric and linguistics Teachers of English as a foreign language even if their students are not primarily from an Arabic speaking background can likewise benefit from the insights made in these contrastive studies Contributors Jehan Allam El Said Badawi Huda M M Ghali Mona Kamel Hassan Nancy G Hottel Burkhart Christopher Horger Salwa Kamel Abdel Hakeem Kasem Nagwa Kassabgy Mohammad Al Khawalda Nabila El Taher Makhoulf Maha El Seidi Cynthia May Sheikholeslami Devin Stewart Loubna A Youssef
