Omid Safi

Al Bidaya Wa L Nihaya English:

The Author and His Doubles Abdelfattah Kilito, 2001-11-01 Michael Cooperson's translation makes Abdelfattah Kilito's masterpiece available to English speaking audiences for the first time. Called the most inventive and provocative critic of Arabic literature writing in the Middle East today, Kilito opens our perception with the same breadth of vision seeking to define the traditional and historical forces that bind one writer to another and that inextricably link an author to a text. This volume benefits from Cooperson's accomplished translation. While rigorously precise, it also allows the wit and humor and the lyricism of Kilito's prose full expression. Drawing on major themes of classical Arabic literature, the essays use simple poetic language to argue that genre, not authorship, is the single most important feature of classical works. Kilito discusses love, poetry, and panegyric, the Prophet's Hadith, and the literary anecdote, as well as offering novel readings of recurrent themes such as memorization, plagiarism, forgery, and dream visions of the dead.

Prophet Muhammad in French and English Literature Ahmad Gunny, 2015-07-02 Gunny, a pioneer in the study of French and European literary and theological representations of Islam in the modern period, offers a survey of over 350 years which is both a cross-cultural history and a discussion of the intellectual changes in the representation of the Prophet's life based on the examination of original published and unpublished manuscripts. *Islamic Horizons* Ahmad Gunny has been a pioneer in the study of French and European literary and theological representations of Islam in the modern period. Thanks to his acclaimed critical studies, students and scholars alike have found in his work new and important directions for research. Nabil Matar, professor, University of Minnesota. This magisterial survey of the Prophet Muhammad over three hundred and fifty years is both a cross-cultural history and a discussion of the intellectual changes in the representation of the Prophet's life based on the close examination of original published and unpublished manuscripts. Ahmad Gunny is fellow and senior associate at the Oxford Centre for Islamic Studies.

The Politics of Knowledge in Premodern Islam Omid Safi, 2006-05-26 The eleventh and twelfth centuries comprised a period of great significance in Islamic history. The Great Saljuqs, a Turkish-speaking tribe hailing from central Asia, ruled the eastern half of the Islamic world for a great portion of that time. In a far-reaching analysis that combines social, cultural, and political history, Omid Safi demonstrates how the Saljuqs tried to create a lasting political presence by joining forces with scholars and saints among them, a number of well-known Sufi Muslims who functioned under state patronage. In order to legitimize their political power, Saljuq rulers presented themselves as champions of what they alleged was an orthodox and normative view of Islam. Their notion of religious orthodoxy was constructed by administrators in state-sponsored arenas such as madrasas and khanaqahs. Thus, orthodoxy was linked to political loyalty, and disloyalty to the state was articulated in terms of religious heresy. Drawing on a vast reservoir of primary sources and eschewing anachronistic terms of analysis such as nationalism, Safi revises conventional views both of the Saljuqs as benevolent Muslim rulers and of the Sufis as timeless, ethereal mystics. He makes a significant contribution to understanding premodern Islam as

[An Anxious Inheritance](#) Aaron W. Hughes,2022 An Anxious Inheritance examines the role of the ever expandable category of non Muslims in early Islam It demonstrates how the Qur an functioned as both a script to understand them and as a map to classify them and this category s role in shaping Sunni orthodoxy This orthodoxy was considered natural but in fact it was based on retroactive back projections Non Muslims and the wrong kinds of Muslims became integral to understanding what true religion was not and what it should be These non Muslims were rarely real individuals or groups rather they functioned as textual foils that could be conveniently orchestrated and ultimately controlled to facilitate self definition

The Caliph and the Imam Toby Matthiesen,2023-02-07 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world In 632 soon after the prophet Muhammad died a struggle broke out among his followers as to who would succeed him The majority argued that the new leader of Islam should be elected by the community s elite Others believed only members of Muhammad s family could lead This dispute over who should guide Muslims the appointed Caliph or the bloodline Imam marks the origin of the Sunni Shii split in Islam Toby Matthiesen explores this hugely significant division from its origins to the present day Moving chronologically his book sheds light on the many ways that it has shaped the Islamic world outlining how over the centuries Sunnism and Shiism became Islams two main branches particularly after the Muslim Empires embraced sectarian identity It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East giving rise to pan Islamic resistance and Sunni and Shii revivalism It then focuses on the fall out from the 1979 revolution in Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages The Caliph and the Imam will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots

The Book of the Jihad of 'Ali ibn Tahir al-Sulami (d. 1106) Niall Christie,2017-07-05 In 1105 six years after the first crusaders from Europe conquered Jerusalem a Damascene Muslim jurisprudent named Ali ibn Tahir al Sulami d 1106 publicly dictated an extended call to the military jihad holy war against the

European invaders Entitled *Kitab al Jihad The Book of the Jihad* al Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted covering topics as diverse as who should fight and be fought treatment of prisoners and plunder and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy Al Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades providing the reader with the first contemporary record of Muslim preaching against the crusaders However until recently only a small part of the text has been studied by modern scholars as it has remained for the most part an unedited manuscript In this book Niall Christie provides a complete edition and the first full English translation of the extant sections parts 2 8 9 and 12 of the manuscript of al Sulami's work making it fully available to modern readers for the first time These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience the precedents that influenced his work and possible directions for future study of the text In addition an appendix provides translations of jihad sermons by Ibn Nubata al Fariqi d 985 a preacher from Asia Minor whose rhetorical style was highly influential in the development of al Sulami's work

Medieval Islamic Historiography Heather N. Keaney, 2013-07-18 This book is a comparative analysis of the medieval Sunni historiography of the caliphate of Uthman b Affan and the revolt against him By comparing treatments of Uthman in pietistic literature and universal chronicles the work traces the gradual silencing of more critical accounts in favor of those that portray Uthman as a saintly companion of the Prophet Muhammad Through a comparative analysis of authors between genres and time periods this book shows how authors were able to convey their personal perspectives on important religio political tensions that emerged through the revolt against Uthman namely the tension between Sunnis and Shiis religious and political authority and appeals to maintain stability and unity vs appeals for greater justice This last debate which in many ways began with the revolt against Uthman has been repeated most recently in the Arab Spring This work therefore provides readers with helpful historical context for important contemporary debates

A History of the 'Alawis Stefan Winter, 2016-10-04 The Alawis or Alawites are a prominent religious minority in northern Syria Lebanon and southern Turkey best known today for enjoying disproportionate political power in war torn Syria In this book Stefan Winter offers a complete history of the community from the birth of the Alawi Nusayri sect in the tenth century to just after World War I the establishment of the French mandate over Syria and the early years of the Turkish republic Winter draws on a wealth of Ottoman archival records and other sources to show that the Alawis were not historically persecuted as is often claimed but rather were a fundamental part of Syrian and Turkish provincial society Winter argues that far from being excluded on the basis of their religion the Alawis were in fact fully integrated into the provincial administrative order Profiting from the economic development of the coastal highlands particularly in the Ottoman period they fostered a new class of local notables and tribal leaders participated in the modernizing educational political and military reforms of the nineteenth century and expanded their area of settlement beyond its traditional mountain borders to

emerge from centuries of Sunni imperial rule as a bona fide sectarian community Using an impressive array of primary materials spanning nearly ten centuries A History of the Alawis provides a crucial new narrative about the development of Alawi society
