Routledge Handbook of University-Community Partnerships in Planning Education Megan E. Heim LaFrombois, Jay Mittal, 2023-10-11 This handbook explores two guiding questions how can university community partnerships in planning education work and how can they be transformative University community partnerships often referred to as service learning or community engaged teaching and learning are traditionally based on a collaborative relationship between an academic partner and a community based partner in which students from the academic partner work within the community on a project Transformational approaches to university community partnerships are approaches that develop and sustain mutually beneficial collaborations where knowledge is co created and new ways of knowing and doing are discovered This edited volume examines a variety of university community partnerships in planning education from a number of different perspectives with a focus on transformative models The authors explore broader theoretical issues including topics relating to pedagogy planning theory and curriculum along with more practical topics relating to best practices logistics institutional support outcome measures and the various forms these partnerships can take all through an array of case studies The authors which include academics professional practitioners academic practitioners and students bring an incredible depth and breadth of knowledge and experience from across the globe Australia Canada Chile Europe including Germany Spain

Slovakia and Sweden India Jamaica South Korea and the United States **Weak States, Vulnerable Governments, and Regional Cooperation** Atena Ștefania Feraru, 2021-10-31 War famine poverty organized crime environmental catastrophes refugees epidemics and pandemics modern slavery all these affect people in the non Western world to an increasingly disproportionate extent It is also where wealthy governments wield economic leverage and military force to renegotiate existing norms of international relations Under these circumstances it is difficult to overestimate the importance and urgency of comprehending the mechanisms and motivations driving these phenomena This book is the outcome of a decade long effort to advance both theoretical and empirical understanding of what motivates non Western governments decisions to cooperate not cooperate regionally It starts by acknowledging the Western centrism of prevailing international relations theories abandoning deeply entrenched assumptions regarding the nature and roles of states and redefining state weakness The inquiry continues by elaborating this new concept and applying it to Southeast Asian polities while positing that it creates governments vulnerable to internal and external threats in line with Joel S Migdal s well known findings on the topic A set of regional cooperation strategies is then inferred based on the survival needs of insecure governing elites and its empirical validity is tested against the experience of regional organizations in Africa Asia and the Americas The second part of the book provides an in depth examination of how Southeast Asian governments shared security needs and interests shaped the emergence of the identified regional cooperation pattern and its evolution over 50 years of cooperation within the Association of Southeast Asian Nations ASEAN Overall this book is a call to international relations scholars to do our part in understanding non Western experiences and making a substantive contribution to addressing humanity s most intractable security threats La seguridad nacional de México José Luis Vergara Ibarra, 2018-06-05 El propósito general de este volumen es identificar los factores económico militar político y social tradicionales para medir la seguridad nacional en México y sumarle los factores de género societal humano y ambiental para conformar un modelo ampliado de medición de la seguridad nacional En el aspecto metodológico la investigación se valió de un sistema teórico matemático que facilitó la construcción y evaluación de una red de influencia de fuerzas causales útil en la solución de problemas complejos como determinar el índice de Seguridad Nacional de México ISNM Dicha red está conformada por un nodograma de 25 nodos internos 138 nodos iniciales y 163 enlaces Para asignar la fuerza a los enlaces de los nodos de la red el autor aplicó encuestas a expertos en cada uno de los rubros específicos que implica la seguridad nacional en el modelo ampliado y para asignar los valores de creencia a los nodos iniciales empleó datos estadísticos nacionales e internacionales Esta evaluación reduce la especulación y da sustento a los datos duros tomados de los años 2012 a 2016 conforme se tuvo acceso a ellos La evaluación de la red permitió llegar a dos resultados principales que el ISNM es una herramienta esencial para determinar áreas que requieren atención prioritaria e identificar las variables que más influyeron en el valor del ISNM El volumen ofrece datos fundamentales para futuras investigaciones en el campo de la seguridad nacional Global Governance in a World of

Change Michael N. Barnett, Jon C. W. Pevehouse, Kal Raustiala, 2021-12-09 Global governance has come under increasing pressure since the end of the Cold War In some issue areas these pressures have led to significant changes in the architecture of governance institutions In others institutions have resisted pressures for change This volume explores what accounts for this divergence in architecture by identifying three modes of governance hierarchies networks and markets The authors apply these ideal types to different issue areas in order to assess how global governance has changed and why In most issue areas hierarchical modes of governance established after World War II have given way to alternative forms of organization focused on market or network based architectures Each chapter explores whether these changes are likely to lead to more or less effective global governance across a wide range of issue areas This provides a novel and coherent theoretical framework for analysing change in global governance This title is available as Open Access on Cambridge Core
