Annihilating Difference Alexander Laban Hinton, 2002-08-15 This text presents a collection of original essays on genocide It explores a wide range of cases including Nazi Germany Cambodia Guatemala Rwanda and Bosnia **Handbook of Transnational Crime and Justice** Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike *Politics and Racism Beyond Nations* J. P. Linthroth, 2022-01-18 This book brings together theoretical knowledge from diverse fields as anthropology biology neurology peace studies political science psychology and sociology to address key challenges that transcend borders It demonstrates how differences are created on many levels to reveal how the othering project is evident through national policies of immigration through aspiring nationalisms through genocidal inhumanity and the subsequent effects of such othering evident in racial trauma It further argues that we cannot limit our understanding of racism to forms of white nationalism or whiteness movements in the developed world and regions but look to the global formulation of such discrimination in colonial histories The book introduces each chapter by providing rich ethnographic narratives from informants based upon the author s research on nationalism racism genocide terrorism trauma scientific tolerance and love and peace as well as some auto ethnographic narratives from the author s research on these themes New Directions in Genocide Research Adam Jones, 2012-03-12 This edited book seeks to capture the range of new approaches theories and case studies in the field of genocide studies Never Meant to Survive João H. Costa Vargas, 2023-06-14 Never Meant to Survive presents a historical political and social assessment of anti black genocide and liberatory struggles that arose to resist it Based on fine grained accounts of community life at the street level Costa Vargas s work presents crucial examples of political resistance and community activism By examining two cities linked by common experiences of Blackness Los Angeles and Rio de Janeiro this book identifies a prevailing genocidal force that organizes individuals and groups across society The 1965 and 1992 riots in Los Angeles the work of the Black Panther Party and favela activists in Brazil and police brutality in struggles between black communities and the state in both L A and Rio de Janeiro all figure importantly in Costa Vargas s compelling account What emerges from this analysis is a call for the destruction of the conditions that foster the marginalization of black communities and a halt to the internal conflicts between black social groups themselves

The Concept of Race in International Criminal Law Carola Lingaas, 2019-09-19. Members of racial groups are protected under international law against genocide persecution and apartheid. But what is race and why was this contentious term not discussed when drafting the Statute of the International Criminal Court? Although the law uses this term is it legitimate to talk about race today let alone convict anyone for committing a crime against a racial group? This book is the first comprehensive study of the concept of race in international criminal law. It explores the theoretical underpinnings for the crimes of genocide apartheid and persecution and analyses all the relevant legal instruments case law and scholarship. It exposes how the international criminal tribunals have largely circumvented the topic of race and how incoherent jurisprudence has resulted in inconsistent protection. The book provides important new interpretations of a problematic concept by subjecting it to a multifaceted and interdisciplinary analysis. The study argues that race in international criminal law should be constructed according to the perpetrator's perception of the victims ostensible racial otherness. The perpetrator's imagination as manifested through his behaviour defines the victims racial group membership. It will be of interest to students and practitioners of international criminal law as well as those studying genocide apartheid and race in domestic and international law.

The Bioarchaeology of Violence Debra L. Martin, Ryan P. Harrod, 2012-08-05. Human violence is an inescapable aspect of our society and culture. As the archaeological record clearly shows this has always been true. What is its origin? What role does it play in shaping our behavior? How do ritual acts and cultural sanctions make violence acceptable? These and other questions are addressed by the contributors to The Bioarchaeology of Violence. Organized thematically the volume opens by laying the groundwork for new theoretical

approaches that move beyond interpretation it then examines case studies from small scale conflict to warfare to ritualized violence Experts on a wide range of ancient societies highlight the meaning and motivation of past uses of violence revealing how violence often plays an important role in maintaining and suppressing the challenges to the status quo and how it is frequently a performance meant to be witnessed by others The interesting and nuanced insights offered in this volume explore both the costs and the benefits of violence throughout human prehistory **Genocide** Adam Jones, 2006-09-27 An invaluable introduction to the subject of genocide explaining its history from pre modern times to the present day with a wide variety of case studies Recent events in the former Yugoslavia Rwanda East Timor and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics The book examines the differing interpretations of genocide from psychology sociology anthropology and political science and analyzes the influence of race ethnicity nationalism and gender on genocides In the final section the author examines how we punish those responsible for waging genocide and how the international community can prevent further bloodshed
