Tobin, Dennis R. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America's elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the denigration of some should be a concern for all Debates in History Teaching Ian Davies, 2017-02-16 Now in its second edition Debates in History Teaching remains at the cutting edge of history education It has been fully updated to take into account the latest developments in policy research and professional practice With further exploration into the major issues that history teachers encounter in their daily professional lives it provides fresh guidance for thinking and practice for teachers within the UK and beyond Written by a range of experts in history education chapters cover all the key issues needed for clear thinking and excellent professional action This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding Debates include What is happening today in history education What is the purpose

of history teaching What do history teachers need to know What are the key trends and issues in international contexts What is the role of evidence in history teaching and learning How should you make use of ICT in your lessons Should moral learning be an aim of history education How should history learning be assessed Debates in History Teaching remains essential reading for any student or practising teacher engaged in initial training continuing professional development or Master's level study Amazing Facts in U.S. History, Grades 5 - 8 Blattner, 2010-08-06 Bring history to life for students in grades 4 and up with Amazing Facts in U.S. History Students will love to explore little known historical facts folklore and facts often taught in school that are either untrue or undocumented in this captivating text Topics covered in this 128 page book include the Fountain of Youth the first Thanksgiving the colonies the Revolutionary War George Washington the Cherokee nation the Gold Rush the Wild West and American Presidents The book includes questions explanations historical mysteries quizzes puzzles logic problems and answer keys
