Visions of Zion Erin C. MacLeod, 2014 In reggae song after reggae song Bob Marley and other reggae singers speak of the Promised Land of Ethiopia Repatriation is a must they cry The Rastafari have been travelling to Ethiopia since the movement originated in Jamaica in 1930s They consider it the Promised Land and repatriation is a cornerstone of their faith Though Ethiopians see Rastafari as immigrants the Rastafari see themselves as returning members of the Ethiopian diaspora In *Visions of Zion* Erin C MacLeod offers the first in depth investigation into how Ethiopians perceive Rastafari and Rastafarians within Ethiopia and the role this unique immigrant community plays within Ethiopian society Rastafari are unusual among migrants basing their movements on spiritual rather than economic choices This volume offers those who study the movement a broader understanding of the implications of repatriation Taking the Ethiopian perspective into account it argues that migrant and diaspora identities are the products of negotiation and it illuminates the implications of this negotiation for concepts of citizenship as well as for our understandings of pan Africanism and south south migration Providing a rare look at migration to a non Western country this volume also fills a gap in the broader immigration studies literature

Reconfiguring Ethiopia: The Politics of Authoritarian Reform Jon Abbink,Tobias Hagmann,2016-04-22

This book takes stock of political reform in Ethiopia and the transformation of Ethiopian society since the adoption of multi party politics and ethnic federalism in 1991 Decentralization attempted democratization via ethno national representation and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades Yet as the contributors to this volume demonstrate democracy in Ethiopia has not changed the authority structures and the culture of centralist decision making of the past The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples Revolutionary Democratic Front EPRDF Navigating between its 1991 announcements to democratise the country and its aversion to power sharing the EPRDF has established a de facto one party state that enjoys considerable international support This ruling party has embarked upon a technocratic developmental state trajectory ostensibly aimed at depoliticizing national policy and delegitimizing alternative courses The contributors analyze the dynamics of authoritarian state building political ethnicity electoral politics and state society relations that have marked the Ethiopian polity since the downfall of the socialist Derg regime Chapters on ethnic federalism revolutionary democracy opposition parties the press the judiciary state religion and state foreign donor relations provide the most comprehensive and thought provoking review of contemporary Ethiopian national politics to date This book is based on a special issue of the Journal of Eastern African Studies

The Ethnopolitics of Ethnofederalism in Ethiopia Jan Erk,2017-12-01

Ethiopia is the darling of development economists since 2005 the country s economic growth rate has consistently been over the 10% mark Ethiopia is also a regional superpower with political influence across East Africa and the Horn Furthermore the African Union has its headquarters in the capital Addis Ababa which further underscores the country s growing international profile On top of everything since 1995 Ethiopia has a federal constitution explicitly committed to granting political autonomy to all ethnic groups within the country Ethiopia s federalism has also direct relevance to the country s neighbours Eritrea Somalia Kenya South Sudan and Djibouti who have ethnic kin across the borders with Ethiopia Yet despite the generous promises to the country s ethnic groups stated in the constitution not everything is well As marked by the recent unrest throughout various regions of the country the federal constitution s promises and the reality do not always perfectly align But there is a shortage of even handed scholarly analyses of this complex country and in particular its unique federal system Based on chapters focusing on different parts of the federal system the collection takes stock of the last 20 years and distils lessons and insights for a broader international comparative readership The chapters originally published in Ethnopolitics and Regional Federal Studies

A Church for the World Samuel Yonas Deressa,Josh de Keijzer,2020-08-20

A Church for the World The Church s Role in Fostering Democracy and Sustainable Development challenges theologians and lay readers alike

to think about the role of the church vis vis its responsibility to the world How may the church contribute to democracy and foster sustainable development Contributors from mostly non Western theological communities offer historical developmental ecclesiastical and theological perspectives on the church world relationship challenging misconceptions and practices that prevent the church from living up to its transformational vocation as salt and light in the world Matt 5 13 16 The driving force behind the questions and perspectives discussed here is Gustavo Gutierrez s axiom in A Theology of Liberation A theology which fails to address the most urgent needs of ordinary people is not worthy of the word theology Proceeding from this insight this book creates awareness about the relationship between religion democracy and development and aims to strengthen the self understanding of the church with regard to its responsibilities in the world
