Sea of Literatures Angela Fabris, Albert Göschl, Steffen Schneider, 2023-12-18 Mediterranean studies flourish in literary and cultural studies but concepts of the Mediterranean and the theories and methods they use are very disparate This is because the Mediterranean is not a simple geographical or historical unity but a multiplicity a network of highly interconnected elements each of which is different and individual Talking about Mediterranean literature raises the question of whether the connectivity of Mediterranean literature can or should be limited in some way by constructing an inside and an outside of the Mediterranean What kind of connectivity and fragmentation do literary texts produce how do they build and interrupt references to the real to fictional forms of representation to history but also to other texts and discourses how do they create and deny communication and how do they engage with and reflect literary and non literary concepts of the Mediterranean These and other questions are considered and discussed in the over twenty contributions gathered in this volume

Audiovisual Posthumanism Evi D. Sampanikou, 2017-05-11 This volume deals with the challenges posthumanism meets as a successor to postmodernism in the field of artistic literary and aesthetic expression It also explores the ways social sciences and humanities are affected by posthumanism and it asks how posthumanism can be an expansion of humanism in the contemporary world rather than a transcendence of humanism The chapters authors come from different countries cultural backgrounds and study areas to present a varied perspective on posthumanism

Future** Hans Christian Garmann Johnsen, Halvor Holtskog, Richard Ennals, 2018-03-21 Coping with the Future has been
written in response to widespread international awareness that the future is not predictable In political and economic terms
we are in unknown territory with daily developments around Brexit and the Trump Presidency and Kodak moments in
business On the other hand business leaders demand certainty which is not available This book redefines the nature of
modern business In contrast to recent trends it has a focus on human centred manufacturing and on decision making which
goes beyond a focus on short term profit The liberal capitalism of the USA and the UK is not the only current variety of
capitalism Business is not just about managers but requires participation and engagement by workers Since the financial
crash of 2008 there has been much talk about the need for fresh approaches to business but little has changed This book
pulls together current research and practice and poses new questions based on case studies There is no one simple best way
but an uncertain future can be addressed drawing on diverse past experience and cases The book addresses an intended
audience in business and universities including business schools around the world The debate takes a broader approach
involving research in the social sciences and approaches from philosophy The world has always been unpredictable but we
have allowed ourselves to be comforted by convenient myths It is time to wake up **Aivali** ,2014 Αἰβάλί Σολούπ, Bruce
