Alain Danielou:

While the Gods Play Alain Daniélou, 1987-08-01 According to the early writings of the Shaiva tradition still alive in India and dating back at least 6 000 years the arbitrary ideologies and moralistic religions of modern society signal the last days of humanity heading toward destruction This prediction is only a fragment of the vast knowledge of Shaiva wisdom author Alain Danielou as assimilated and reviewed essential concepts of the Shaiva philosophy and its predictions Clearly expressed in the ancient teachings these concepts are in accord with yet surpass the boldest scientific speculations about consciousness time the nature of life and matter and the history and destiny of the human race Inherent in this body of knowledge is an understanding of the cycles of creation and destruction which in conjunction with astronomical phases determine the life span of the species Since 1939 humankind has been in the twilight of the Kali Yuga age or at the end of a cycle The impending cataclysm Danielou explains is brought on by our own errors and its date will be determined by our present and future actions While the Gods Play examines how the visionaries of ancient times defined our role in creation It explains why and how we have abandoned this role and reflects on what action can be taken to consciously and creatively influence our own destiny Included are chapters on The Religion of Nature and The Religion of the City The Transmigrant Body Sexual Rites the Castes Sacrifice Magical Powers Monastic Orders and Forestalling the Final Day **The Myths and Gods of**

India Alain Danielou, 2017-01-01 This study of Hindu mythology explores the significance of the most prominent Hindu deities as they are envisioned by the Hindus themselves Referred to by its adherents as the eternal religion Hinduism recognizes for each age and each country a new form of revelation and for each person according to his or her stage of development a different path of realization This message of tolerance and adaptability the very heart of Hindu polytheism resounds clearly throughout Alain Danielou's work Photographic plates by Raymond Burnier further illustrate the many facets of Hindu teaching and grace the significance of the Gods of the Vedas as well as Vishnu Shiva Brahma Kali Shakti and other deities Traces from the Labyrinth, 2024 *Music and the Power of Sound* Alain Daniélou, 1995-08-01 Music has

always been esteemed for its power to speak directly to our higher consciousness a power founded in the purity of simple harmonic ratios In this book Alain Danielou traces the development of musical scales and tuning from their origins in both China and India through their merging in ancient Greece and on to the development of the Western traditions of modal and polyphonic music Understanding these potent harmonic relationships offers a way for today's musicians to transcend the limitations of overly rationalistic music by drawing on its metaphysical roots Shiva and the Primordial Tradition Alain

Daniélou, 2006-11-10 An extensive examination of the underpinnings of the Shaivite Tradition Reveals the influence of Shaivism on the Western world Discusses Shaivism's understanding of sacred sexuality Presents the connections between Vedic poetry and metaphysics In *Shiva and the Primordial Tradition* Alain Daniélou explores the relationship between Shaivism and the Western world Shaivite philosophy does not oppose theology cosmology and science because it recognizes

that their common aim is to seek to understand and explain the nature of the world In the Western world the idea of bridging the divide between science and religion is just beginning to touch the edges of mainstream thought This rare collection of the late author s writings contains several never before published articles and offers an in depth look at the many facets of the Samkhya the cosmologic doctrines of the Shaivite tradition Dani lou provides important revelations on subjects such as the science of dreams the role of poetry and sexuality in the sacred the personality of the great Shankara and the Shaivite influence on the Scythians and the Parthians and by extension the Hellenic world in general Providing a convincing argument in favor of the polytheistic approach he explains that monotheism is merely the deification of individualism the separation of humanity from nature and that by acknowledging the sacred in everything we can recognize the imprint of the primordial tradition Northern Indian Music.
