adventure **Confabulations : Storytelling in Architecture** Paul Emmons, Marcia F. Feuerstein, Carolina Dayer, 2016-12-19 Confabulation is a drawing together through storytelling Fundamental to our perception memory and thought is the way we join fractured experiences to construct a narrative Confabulations Storytelling in Architecture weaves together poetic ideas objects and events and returns you to everyday experiences of life through juxtapositions with dreams fantasies and hypotheticals It follows the intellectual and creative framework of architectural cosmopoiesis developed and practiced by the distinguished thinker architect and professor Dr Marco Frascari who thought deeply about the role of storytelling in architecture Bringing together a collection of 24 essays from a diverse and respected group of scholars this book presents the convergence of architecture and storytelling across a broad temporal geographic and cultural range Beginning with an introduction framing the topic the book is organized along a continuous thread structured around four key areas architecture of stories stories of architecture stories of theory and practice of stories Beautifully illustrated throughout and including a 64 page full colour section Confabulations is an insightful investigation into architectural narratives **The Alchemy Key** Stuart Nettleton, 2015-04-10 Colleagues often ask me why I wrote this unusual book At first it was simply so I could sleep at night It was a way to marshal the extraordinary facts and histories that constantly rotated in my mind and became graphically alive at bedtime Now I think my reason is to restore in a humble way richness to the mystery tradition at a time when the old arts of the philosopher are all but lost There are many paths to the mysteries The most predominant organizations in western societies are usually composed of people we might call literalists They would not like the more accurate label of antiphilosophers Literalists believe their traditional histories are unique explain everything and provide enough wisdom to make the rest of civilization irrelevant Answer to Jung Lynn Brunet, 2018-11-08 The Red Book is C G Jung's record of a period of deep penetration into his unconscious mind in a process that he called active imagination undertaken during his mid life period Answer to Jung Making Sense of The Red Book provides a close reading of this magnificent yet perplexing text and its fascinating images and demonstrates that the fantasies in The Red Book are not entirely original but that their plots characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry It argues that the fantasies may be memories of a series of terrifying initiatory ordeals possibly undergone in childhood using altered or spurious versions of these Masonic rites It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s This is the first full length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a message in a bottle that would someday come ashore Answer to Jung brings its message to shore providing a coherent but disturbing interpretation of each of the fantasies and their accompanying images Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
