A Western Approach To Reincarnation And Karma Selected Lectures Writings Vista Series:

A Western Approach to Reincarnation and Karma Rudolf Steiner, 1997 The soul's immortality and its repeated earthly births are not new ideas in Western thought. They are implicit in the Pythagorean and Platonic traditions as well as in some branches of esoteric Judaism and Cabbala. But it was not until the early years of this century that the West was given a detailed modern evolutionary philosophy of human life based on the reality of reincarnation and karma. This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches. He viewed the revelation of reincarnation and karma as one of his most important life tasks. Steiner's contribution however remains unique in its understanding of the human being as an evolving developing being of body soul and spirit. On the basis of his researches presented in numerous books and lectures we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others but also to human history and evolution and to earthly and cosmic events. This book collects many of Steiner's major statements on reincarnation and karma. The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution. Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty. The notion of reincarnation and karma is generally associated in most minds with spiritual traditions of the East especially Hinduism and Buddhism. Ren Querido's in depth sixty page introduction however places these concepts within the context of Western spiritual development and esoteric tradition showing us a panoramic view of how such ideas have developed over the centuries in the West.

A Western Approach to Reincarnation and Karma Rudolf Steiner, 1997-10 I came forth from the mouth of the Most High and covered the earth like a mist I encamped in the heights and my throne was in a pillar of cloud Alone I compassed the vault of heaven and traversed the depths of the abyss Over waves of the sea over all the earth and over every people and nation I have held sway Before the ages in the beginning he created me and for all ages I shall not cease to be Eccl 24 3 6 9 Sophia the world soul fell from her place in the heavens to the chaos below Sophia is among the most haunting and mysterious figures in Western spirituality She is also one of the great symbols of the divine feminine in world civilization The personification of divine Wisdom Sophia is praised in the biblical book of Proverbs as co creator of the universe with God In the secret teachings of early Christianity known as Gnosticism she represents our shared consciousness trapped in the

material world as a result of the Fall One of the most sublime Gnostic texts is the Pistis Sophia or Faith Wisdom a great allegory in which the resurrected Christ explains how he freed the divine Sophia from her imprisonment by the forces of spiritual wickedness Christ goes on to show his disciples how they will share in this cosmic act of redemption In this profound yet accessible work Egyptologist Violet MacDermot gives us a fresh translation of the Pistis Sophia from the Coptic and discusses it in its historical setting She also shows us how Sophia s story of is our story It is a tale of our separation and isolation as a result of ego consciousness but it is one in which we too can share spiritual liberation Her engaging discussion relates this work not only to ancient teachings but to the thought of C G Jung Emanuel Swedenborg and the Kabbalah

A Life for the Spirit Henry Barnes, 1997 Whether or not Steiner s insights are valid is for each of us to determine His work is not easy and he challenges our usual thinking every step of the way The insights are radical in the original meaning of that word they go to the roots We are forced more and more to realize that only through such thinking can actions arise that are truly healing and constructive Henry Barnes from the introduction Few people today recognize Rudolf Steiner s name yet those who are aware of him know that his presence pervades every forward looking aspect of contemporary life Nearly all fields of life have been fructified by his insights not abstractly or theoretically but in a concrete way that changes lives No wonder then that Steiner has been called the best kept secret of the twentieth century Born in 1861 in Kraljvec Austria Steiner showed evidence early on of the most varied gifts a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world a determined need to think things through for himself and a profound reverence for the divine He first made his mark as a philosopher and the editor of Goethe s scientific writings He also recognized the revolutionary spirit in Nietzsche But Steiner s destiny led him in a different direction Profound cognitive experiences determined that his task would lie in service to the spirit While recognizing the integrity of modern science s phenomenological empiricism he also knew that the time had come to extend the field of science to include investigation of the supersensible Working at first within the Theosophical Society but always speaking and writing out of his own experience Steiner developed the foundations for a thoroughly modern spiritual scientific discipline that would transform spiritual and cultural life Until his death in 1925 in countless lectures and books Steiner created the body of knowledge and practice known as anthroposophy which not only challenged and extended the underlying methods of modern knowledge but stimulated many practical cultural initiatives such as Waldorf education biodynamic agriculture the art of eurythmy the movement for a threefold social order and anthroposophical medicine Henry Barnes the author of *Into the Heart s Land* A Century of Rudolf Steiner s Work in North America recounts the dynamic life of this remarkable man He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory tower philosopher but as a leading actor in the drama one whose entire being was given in service to humanity and to the spirit Contents Foreword by Robert McDermott Introduction In Search of a New Thinking The Twentieth Century Battleground for Human Individuality Child of

Middle Europe Biographical Foundations The Weimar Years Nietzsche Steiner and the Redemption of Thinking The Years of Inner Testing Berlin The Work Unfolds The Building Rises Insight Becomes Life The Three fold Movement for Social Reform The First Waldorf School and the Independence of Education The Healing Arts Religious Renewal Out of Fire Renewal from Within The Christmas Foundation Months of Grace Afterword The Battle Continues What Can I Do *The Archangel Michael* Rudolf Steiner, 1994 The Michael age has dawned Hearts begin to have thoughts Enthusiasm no longer flows from mystical obscurity but from the inner clarity that thought conveys To grasp this is to receive Michael into one's soul Thoughts that today seek to grasp the spirit must spring from hearts that beat for Michael as the fiery cosmic prince of thought Rudolf Steiner For centuries the tradition of the mystical chronology of the world's seven archangelic regents has been part of Western esoteric teaching According to this tradition 1879 marked the return of the solar spirit Michael the archangel of the Sun to oversee earthly evolution Steiner always placed his life and work in the service of Michael's evolutionary task And he recognized that at the beginning of the twentieth century humanity emerged from the Kali Yuga the Dark Age and entered the Age of Light Against this background Steiner described the ascent of Michael as cosmic ruler his battle with the dragon of the spirits of darkness and his roles as the countenance of Christ and the guardian of cosmic intelligence He also gave many profound indications of how Michael's evolutionary task depends on the free and independent collaboration of human coworkers Speaking on behalf of Michael Steiner laid out the essentials for a new Michaelic path to full humanity Among the elements of this path are the development of selfless individuality cosmopolitanism the practice of the presence of Christ fearlessness the transformation of thinking and perception in a new synthesis of science art and religion the spiritualization of space and the separation of thought from language The Archangel Michael gathers most of Steiner's statements on this subject making it an important source for coming to terms with today's political social psychological and spiritual crises

Rhythms of Learning Rudolf Steiner, 1998-03 The primary task of a Waldorf teacher is to understand the human being in body soul and spirit From this understanding will grow the approach the curriculum and the methods of an education capable of addressing the whole child Roberto Trostli Waldorf education an established and growing independent school movement continues to be shaped and inspired by Rudolf Steiner's numerous lectures on education In *Rhythms of Learning* key lectures on children and education have been thoughtfully chosen from the vast amount of material by Steiner and presented in a context that makes them approachable and accessible In his many discussions and lectures Steiner shared his vision of an education that considers the spirit soul and physiology in children as they grow Roberto Trostli an experienced Waldorf teacher has selected the works that best illustrate the fundamentals of this unique approach In each chapter Trostli explains Steiner's concepts and describes how they work in the contemporary Waldorf classroom We learn how the teacher child relationship and the Waldorf school curriculum changes as the students progress from kindergarten through high school This book will serve as an excellent resource for parents who want to understand how their child is learning Parents

will be better prepared to discuss their child's education with teachers and teachers will find it a valuable reference source and communication tool

Art as Spiritual Activity Rudolf Steiner, 1997 This book introduces a new way for thinking about creating and viewing art Rudolf Steiner saw his task as the renewal of the lost unity of science the arts and religion thus he created a new cognitive scientific and religious art in anthroposophy The implications of his act recognized by such diverse artists as Wassily Kandinsky and Joseph Beuys are only now coming fully to light In his thorough introduction of more than a hundred pages Michael Howard takes readers through these thought provoking chapters Is Art Dead To Muse or Amuse Artistic Activity As Spiritual Activity The Representative of Humanity Beauty Creativity and Metamorphosis New Directions in Art Lectures include The Aesthetics of Goethe's Worldview The Spiritual Being of Art Buildings Will Speak The Sense Organs and Aesthetic Experience The Two Sources of Art The Building at Dornach The Supersensible Origin of the Arts Truth Beauty and Goodness Christ Ahriman and Lucifer Plus a bibliography and index
