Getting What We Need Ourselves Jennifer Jensen Wallach, 2019-06-01 Beginning with an examination of West African food traditions

during the era of the transatlantic slave trade and ending with a discussion of black vegan activism in the twenty first century

Getting What We Need Ourselves How Food Has Shaped African American Life tells a multi faceted food story that goes beyond the well known narrative of southern derived soul food as the predominant form of black food expression While this book considers the provenance and ongoing cultural resonance of emblematic foods such as greens and cornbread it also examines the experiences of African Americans who never embraced such foods or who rejected them in search of new tastes and new symbols that were less directly tied to the past of plantation slavery This book tells the story of generations of cooks and eaters who worked to create food habits that they variously considered sophisticated economical distinctly black all American ethical and healthful in the name of benefiting the black community Significantly it also chronicles the enduring struggle of impoverished eaters who worried far more about having enough to eat than about what particular food filled their plates Finally it considers the experiences of culinary laborers whether enslaved poorly paid domestic servants tireless entrepreneurs or food activists and intellectuals who used their knowledge and skills to feed and educate others making a lasting imprint on American food culture in the process Throughout African American history food has both been used as a tool of empowerment and wielded as a weapon Beginning during the era of slavery African American food habits have often served as a powerful means of cementing the bonds of community through the creation of celebratory and affirming shared rituals However the system of white supremacy has frequently used food or often the lack of it as a means to attempt to control or subdue the black community This study demonstrates that African American eaters who have worked to creative positive representations of black food practices have simultaneously had to confront an elaborate racist mythology about black culinary inferiority and difference Keeping these tensions in mind empty plates are as much a part of the history this book sets out to narrate as full ones and positive characterizations of black foodways are consistently put into dialogue with distorted representations created by outsiders Together these stories reveal a rich and complicated food history that defies simple stereotypes and generalizations

fire But those stories can fool us too Entertainments can seduce us into forgetting the actual history in favor of a more romanticized version or whitewashed memory The Civil War and Pop Culture Favorite Stories and Fresh Perspectives from the Historians at Emerging Civil War explores some of the ways people have imagined and re imaged the war at the tension between history and art and how those visions have left lasting marks on American culture This collection of essays brings together the best scholarship from Emerging Civil War s blog symposia and podcast all of it revised and updated coupled with original piece designed to shed new light and insight on some of the most entertaining nostalgic and evocative connections we have to the war

Backlash Presidents Julia R. Azari, 2025-09-23 How most presidents avoid upsetting the racial status quo and why those who do pave the way for lawless norm violating successors When Barack Obama won the White House in 2008 becoming the nation's first Black president the stage was set for Donald Trump's eventual rise to power *Backlash Presidents* shows how throughout American history administrations that challenge the country's racial status quo

are followed by presidents who deal in racially charged politics and presidential lawlessness culminating in impeachment crises In this incisive book Julia Azari traces the connections between racially transformative presidents and their successors examining the presidencies of Abraham Lincoln and Andrew Johnson Lyndon Johnson and Richard Nixon and Obama and Trump When he signed long awaited civil rights legislation in 1964 Lyndon Johnson unleashed a perfect political storm that swept Nixon into the White House Azari demonstrates how Nixon s rhetoric relationship to Congress and attitudes about executive power exhibit striking parallels with Andrew Johnson and Trump She discusses how their actions are linked to race and racialized institutions the Department of War during Reconstruction the FBI during the Nixon years and elections today and looks at what happens after impeachment describing how the rush to establish a new order perpetuates many of the same problems as the old Challenging the conventional wisdom about the role of norms in American democracy Backlash Presidents reveals how normal presidential politics upholds unsustainable racial hierarchy that in turn gives rise to intense periods of instability
