Practitioner's Handbook on International Commercial Arbitration Frank-Bernd

Weigand, 2009-12-24 The Practitioner's Handbook on International Commercial Arbitration provides concise country reports on important jurisdictions for international arbitral proceedings as well as commentaries on well known arbitration rules which are frequently incorporated in international legal agreements. Most international commercial contracts now include an arbitration clause as an alternative to resolving disputes in the state courts. This second edition of the Practitioner's Handbook includes newly updated country chapters, expanded international coverage and commentary on the most important arbitration rules worldwide. It is written by world leading arbitration practitioners and academics and combines a practical approach with in depth legal research and analysis of important national and international case law. The book is unique in its coverage, providing uniformly designed country reports and thorough commentaries on internationally recognized arbitration rules in just one volume. There are individual chapters for the following countries: Austria, Belgium, China, and it provides details of national arbitration laws, arbitral institutions in the jurisdiction, model arbitration clauses, and a bibliography including a list of key judicial decisions. The first edition was reviewed as an outstanding book and an extremely useful tool. The work is an indispensable one stop reference point for lawyers drafting international arbitration clauses or handling arbitration proceedings in different countries.

College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration - Third Edition James M. Gaitis, Carl F. Ingwalson, Jr., Vivien B. Shelanski, 2014-01-01 This third edition of The College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration has been substantially expanded not only to ensure that it is up to date but also to incorporate several new chapters on diverse subjects including intratribunal relations, arbitrators' fees, eDiscovery, and hybrid arbitration processes. Summary of New Material: Twice as long as the second edition. Substantial revision and expansion of existing chapters. Four new chapters: Arbitrators' Fees, Expenses, eDiscovery, Intratribunal Relations, Hybrid Arbitration Proceedings. Updated to take into account evolving case law and to address newly emerging issues relating to the management of commercial arbitrations. Comparative tables regarding certain aspects of major international rules and international arbitration institution policies. Revised to take into account The new 2013 CPR Administered Arbitration Rules, The 2013 revisions to the AAA Commercial Rules, Various protocols and guidelines relating to domestic commercial arbitration, The 2011 revisions to the JAMS International Rules, The 2012 revisions to the ICDR Articles, The 2010 revisions to the UNCITRAL Rules, The 2013 IBA Guidelines on Party Representation in International Arbitration, The 2010 revisions to the IBA Rules on the Taking of Evidence in International Arbitration. Various protocols and guidelines relating to domestic commercial arbitration. The aim of the Guide is to identify best practices that arbitrators can employ to provide users of arbitration with the highest possible standards of economy and fairness in the disposition of business disputes. This third edition of the Guide refines the guidance contained in the first and second editions to take into account

developing case law revised institutional rules advancements in arbitration techniques and thinking and also addresses newly evolving issues such as electronic discovery There are significant differences in the ways in which arbitrations are conducted in different substantive fields of commerce and among different arbitrators in the same field Techniques that are appropriate and useful in one case may be quite unsuited to another For this reason it is not possible to prescribe a single set of best practices that commercial arbitrators should invariably follow in every case Rather this Guide attempts to identify the principal issues that typically arise in each successive stage of an arbitration and to explain the pros and cons of various preferred ways of handling each issue From this perspective the best practice for an arbitrator is to carefully consider the merits of alternative techniques available for dealing with a particular issue and to then select the technique best suited to the situation In addition the Guide attempts to identify the full array of practices available for use in complex arbitrations which can be adapted and streamlined for simpler cases Formed in 2001 the College of Commercial Arbitrators is a non profit organization composed of prominent experienced commercial arbitrators who believe that a national association of commercial arbitrators can provide a meaningful contribution to the profession to the public and to the businesses and lawyers who depend on arbitration as a primary means of dispute resolution Its mission includes promoting professionalism and high ethical practice in commercial arbitration adopting and maintaining standards of conduct providing peer training and professional development and developing and publishing best practices materials This work is the College s principal vehicle for fulfilling several aspects of its mission Many seasoned and knowledgeable practitioners generously contributed their time and insights to the creation of this Guide
