African American Art and Artists Samella S. Lewis, 1990 Drawing from historical and private collections around the country Samella Lewis has gathered an impressive representation of the work of African American artists from the 18th century to the present For this edition she has provided a new chapter on art of the last decade Handsomely and generously illustrated this book reveals a rich legacy of work by African American painters sculptors and graphic artists Art historical scholarship is greatly advanced by Samella Lewis's African American Art and Artists in that it foregrounds the work of artists who have been influencing the texture of art in the United States during the last two decades of the 20th century Throughout African American Art and Artists Lewis interrogates the issue of identity by presenting the biographical sketch which locates the individual artistic personality within a specific cultural background with its own peculiar dynamics giving a face to two cities of Black American art Without polemics Lewis presents women artists Edmonia Lewis to Allison Saar as principal players in constructing an African American visual arts legacy Here Lewis sufficiently defines the visual arts in order that they may assume their rightful place alongside African American music literature and folklore as cultural expressions that have helped to give American culture its distinct character from the foreword by Floyd Coleman Harvard University **A**

Driskell, 2001 This volume presents selections from the highly respected Cosby collection of African American art Their introductions elaborate on their strong belief that African American families should themselves seek to preserve their cultural history and not rely on the mainstream They also provide interesting background about how they began their collection and what owning the art has meant to them The essay by Driskell curator author and scholar places each artist within the context of his or her era from the late 1700s to the present and explores the historical biographical social and political background of each period Also contains biographies of the artists Beautifully illustrated with 91 color plates and several other illustrations Oversize 10 25x13 25 Annotation copyrighted by Book News Inc Portland OR **Creating Their**

Own Image Lisa E. Farrington, 2005 Creating Their Own Image marks the first comprehensive history of African American women artists from slavery to the present day Using an analysis of stereotypes of Africans and African Americans in western art and culture as a springboard Lisa E Farrington here richly details hundreds of important works many of which deliberately challenge these same identity myths of the carnal Jezebel the asexual Mammy the imperious Matriarch in crafting a portrait of artistic creativity unprecedented in its scope and ambition In these lavishly illustrated pages some of which feature images never before published we learn of the efforts of Elizabeth Keckley fashion designer to Mary Todd Lincoln the acclaimed sculptor Edmonia Lewis internationally renowned for her neoclassical works in marble and the artist Nancy Elizabeth Prophet and her innovative teaching techniques We meet Laura Wheeler Waring who portrayed women of color as members of a socially elite class in stark contrast to the prevalent images of compliant maids impoverished malcontents and exotics others that proliferated in the inter war period We read of the painter Barbara Jones Hugu s collaboration on the famed Wall of Respect even as we view a rare photograph of Hugu in the process of painting the mural Farrington expertly guides us through the fertile period of the Harlem Renaissance and the New Negro Movement which produced an entirely new crop of artists who consciously imbued their work with a social and political agenda and through the tumultuous explosive years of the civil rights movement Drawing on revealing interviews with numerous contemporary artists such as Betye Saar Faith Ringgold Nanette Carter Camille Billops Xenobia Bailey and many others the second half of Creating Their Own Image probes more recent stylistic developments such as abstraction conceptualism and post modernism never losing sight of the struggles and challenges that have consistently influenced this body of work Weaving together an expansive collection of artists styles and periods Farrington argues that for centuries African American women artists have created an alternative vision of how women of color can are and might be represented in American culture From utilitarian objects such as quilts and baskets to a wide array of fine arts Creating Their Own Image serves up compelling evidence of the fundamental human need to convey one s life one s emotions one s experiences on a canvas of one s own making Black Art: A Cultural History (Third) (World of Art) Richard J. Powell, 2021-10-26 This groundbreaking study explores the visual representations of Black culture across the globe throughout the twentieth century and into the twenty first The African

diaspora a direct result of the transatlantic slave trade and Western colonialism has generated a wide array of artistic achievements from blues and reggae to the paintings of the pioneering American artist Henry Ossawa Tanner and the music videos of Solange This study concentrates on how these works often created during times of major social upheaval and transformation use Black culture both as a subject and as context From musings on the souls of black folk in late nineteenth century art to questions of racial and cultural identities in performance media and computer assisted arts in the twenty first century this book examines the philosophical and social forces that have shaped Black presence in modern and contemporary visual culture Renowned art historian Richard J Powell presents Black art drawn from across the African diaspora with examples from the Americas the Caribbean and Europe Black Art features artworks executed in a broad range of media including film photography performance art conceptual art advertising and sculpture This updated second edition helps to better understand how the first two decades of the twenty first century have been a transformative moment in which previous assumptions about race and identity have been irrevocably altered with art providing a useful lens through which to think about these compelling issues
