After Apartheid Reinventing South Africa:

After Apartheid Ian Shapiro, Kahreen Tebeau, 2011-06-21 Democracy came to South Africa in April 1994 when the African National Congress won a landslide victory in the first free national election in the country's history. That definitive and peaceful transition from apartheid is often cited as a model for others to follow. The new order has since survived several transitions of ANC leadership and it averted a potentially destabilizing constitutional crisis in 2008. Yet enormous challenges remain. Poverty and inequality are among the highest in the world. Staggering unemployment has fueled xenophobia resulting in deadly aggression directed at refugees and migrant workers from Zimbabwe and Mozambique. Violent crime rates, particularly murder and rape, remain grotesquely high. The HIV/AIDS pandemic was shockingly mishandled at the highest levels of government and infection rates continue to be overwhelming. Despite the country's uplifting success of hosting Africa's first World Cup in 2010, inefficiency and corruption remain rife. Infrastructure and basic services are often semifunctional and political opposition and a free media are under pressure. In this volume, major scholars chronicle South Africa's achievements and challenges since the transition. The contributions, all previously unpublished, represent the state of the art in the study of South African politics, economics, law, and social policy. **Policy, Politics and Poverty in South**

Africa Jeremy Seekings, Nicoli Nattrass, Kasper, 2015-07-21 Seekings and Nattrass explain why poverty persisted in South Africa after the transition to democracy in 1994. The book examines how public policies both mitigated and reproduced poverty and explains how and why these policies were adopted. The analysis offers lessons for the study of poverty elsewhere in the world. **Domains of Freedom** Thembela Kepe, Melissa Levin, Bettina von Lieres, 2016-09-12 After more than 20

years of freedom in South Africa, we have to ask ourselves difficult questions: are we willing to perpetuate a lie, search for facts, or think wishfully? Freedom has been enabled by apartheid's end, but at the same time, some of apartheid's key institutions and social relations are reproduced under the guise of democracy. This collection of essays acknowledges the enormous expectations placed on the shoulders of the South African revolution to produce an alternative political regime in response to apartheid and global neo-liberalism. It does not lament the inability of South Africa's democracy to provide deeper freedoms or suggest that since it hasn't, this is some form of betrayal. Freedom is made possible and/or limited by local political choices, contemporary global conditions, and the complexities of social change. This book explores the multiplicity of spaces within which the dynamics of social change unfold and the complex ways in which power is produced and reproduced. In this way, it seeks to understand the often non-linear practices through which alternative possibilities emerge, the lengthy and often indirect ways in which new communities are imagined and new solidarities are built. In this sense, this book is not a collection of hope or despair. Nor is it a book that seeks to situate itself between these two poles. Instead, it aims to read the present historically, critically, and politically and to offer insights into the ongoing, iterative, and often messy struggles for freedom. **Freedom Is Power** Lawrence Hamilton, 2014-07-31 A novel, sophisticated and realistic account of freedom as

power through political representation Party Politics and Economic Reform in Africa's Democracies M. Anne Pitcher, 2012-05-07 Argues that the interaction of formal institutions and the quality of democracy explain patterns of private sector development across Africa Global Lynching and Collective Violence Michael J. Pfeifer, 2017-02-10 Often considered peculiarly American lynching in fact takes place around the world In the first book of a two volume study Michael J Pfeifer collects essays that look at lynching and related forms of collective violence in Africa Asia and the Middle East Understanding lynching as a transnational phenomenon rooted in political and cultural flux the writers probe important issues from Indonesia where a long history of public violence now twines with the Internet to South Africa with its notorious history of necklacing Other scholars examine lynching in medieval Nepal the epidemic of summary executions in late Qing era China the merging of state sponsored and local collective violence during the Nanking Massacre and the ways public anger and lynching in India relate to identity autonomy and territory Contributors Laurens Bakker Shaiel Ben Ephraim Nandana Dutta Weiting Guo Or Honig Frank Jacob Michael J Pfeifer Yogesh Raj and Nicholas Rush Smith **Race(ing) Intercultural Communication** Dreama G. Moon, Michelle A. Holling, 2017-10-02 Race ing Intercultural Communication signals a crucial intervention in the field as well as in wider society where social and political events are calling for new ways of making sense of race in the 21st century Contributors to this book work at multiple intersections theoretically and methodologically in order to highlight relational im possibilities for intercultural communication Chapters underscore the continuing importance of studying race and the diverse mechanisms that maintain racial logics both in the U S and globally In the so called post racial era in which we live not only are disrupting notions of colour blindness crucially important but so too are imagining new ways of thinking through racial matters Ranging from discussions of new media popular culture and political discourse to resistance literature gay culture and academia contributors produce incisive analyses of the operations of race and white domination including the myriad ways in which these discourses are reproduced and disrupted This book was originally published as a special issue of the Journal of International and Intercultural Communication **Poverty Knowledge in South Africa** Grace Davie, 2015-02-05 Poverty is South Africa s greatest challenge But what is poverty How can it be measured And how can it be reduced if not eliminated In South Africa human science knowledge about the cost of living grew out of colonialism industrialization apartheid and civil resistance campaigns which makes this knowledge far from neutral or apolitical South Africans have used the Poverty Datum Line PDL Gini coefficients and other poverty thresholds to petition the state to chip away at the pillars of white supremacy and more recently to criticize the postapartheid government s failures to deliver on some of its promises Rather than promoting one particular policy solution this book argues that poverty knowledge teaches us about the dynamics of historical change the power of racism in white settler societies and the role of grassroots protest movements in shaping state policies and scientific categories Readers will gain new perspectives on today s debates about social welfare redistribution and human rights and will ultimately find reasons to rethink
