After Utopia Decline Political Princeton:

After utopia Judith N. Shklar, 1957 **After Utopia** Judith N. Shklar, 1957 *Rousseau and the Paradox of Alienation* Sally Howard Campbell, 2012-01-01 This book examines the concept of human alienation as it is depicted in the writings of Rousseau who considered life in civil society to be antithetical to man's true solitary nature. A complete understanding of man's estrangement from himself and from those around him, a concept made popular in the works of Marx and others, requires an examination of the concept's earlier treatment by Rousseau.

No Other Planet Mathias Thaler, 2022-09-22 Visions of utopia, some hopeful, others fearful, have become increasingly prevalent in recent times. This groundbreaking, timely book examines expressions of the utopian imagination with a focus on the pressing challenge of how to inhabit a climate-changed world. Forms of social dreaming are tracked across two domains: political theory and speculative fiction. The analysis aims to both uncover the key utopian and dystopian tendencies in contemporary debates around the Anthropocene as well as to develop a political theory of radical transformation that avoids not only debilitating fatalism but also wishful thinking. This book juxtaposes theoretical interventions from Bruno Latour to the members of the Dark Mountain collective with fantasy and science fiction texts by N.K. Jemisin, Kim Stanley Robinson, and Margaret Atwood, debating viable futures for a world that will look and feel very different from the one we live in right now.

American Political Scientists Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists, each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present. This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s. Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years, with attention to varied approaches and the different subfields. Alphabetically arranged entries focus on the main ideas and major works by each scholar, listing the most important publications by and about the individual. There are numerous cross-references to show how the work of one scholar has influenced another in the discipline. Appendices list the political scientists by degree-granting institutions and by major fields. A short bibliography points to important general readings about the profession. A general index makes this major reference easily accessible for broad interdisciplinary research.

Sustainable Utopias Jennifer L. Allen, 2022-03-22 Jennifer Allen details a German utopian movement that arose against capitalist triumphalism at the end of the Cold War. Describing public art and history projects alongside novel community-centered political institutions, Allen shows how activists invited ordinary people to build a radically new society free from alienation and disenfranchisement.

Secularism in the Arab World al-Azmeh Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al-Azmeh's seminal work *Al-Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992. Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World, it is the only study to date to approach its subject as a

set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the theme from the vantage point of social political and intellectual issues of relevance today

Political Representation and Constitutional Adjudication Luís Pereira Coutinho, 2025-05-08

Constitutional courts claim to act in the name of the people and moreover are supposed to do so in the express terms of many constitutional texts This raises the question of knowing whether they can be deemed as proper representatives of the people This book addresses that question offering different views both in favor and against the idea of political representation by the constitutional jurisdiction The contributions are authored by prominent scholars with outstanding previous work on the themes of political representation and of constitutional review namely Michel Troper Pasquale Pasquino Pierre Brunet Miguel Nogueira de Brito Dimitrios Kyritsis Bojan Spaic Pedro Lomba and Pierre Marie Raynal Chapter In search of what is common political representation by the constitutional jurisdiction is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Critical Political Studies Colin Leys, 2002 A collective picture of modern capitalism suggests that economic prospects political costs and implications for human development and freedom under this system are grim indeed However the possibility of an alternative viewpoint and an alternative system provide grounds for optimism The authors in *Critical Political Studies* challenge the neo liberal pro market ideology that has arisen in the age of the so called post communist new world order wrestling with the implications of globalization democratization and the politics of radical social change

Contemporary Political Thought Alan Finlayson, 2003-09 Contemporary Political Theory is a foundation textbook in political thought
