Against Old Europe Critical Theory And Alter Globalization Movements:

Against Old Europe Raphael Schlembach, 2016-04-01 In the wake of the Iraq war the term Old Europe was appropriated by politicians civil society and social movement actors alike to rally in defence of supposedly social and civilized values against the perceived predatory forces of American finance Against Old Europe sheds light on the social movement politics encapsulated in the protest slogan Fight Old Europe Within what is broadly labelled the global justice movement it explores a particular radical perspective that warns against the identification with European values by movements resisting neoliberalism Exploring the work of key theorists critical of globalization including Habermas Negri Holloway Postone and de Benoist the book examines critical theory approaches to alter globalization illustrated with concrete examples of movements within contemporary Europe In so doing it invites readers to explore the charges of nationalism anti Americanism and antisemitism brought against parts of the alter globalization movement Providing a new perspective on critiques of globalization Against Old Europe will appeal to sociologists and social and political theorists studying social movements anti globalization activism and European politics and identity

Against Old Europe Critical Theory and Alter-Globalisation Movements Raphael Schlembach, 2014-08-01 Exploring the work of key theorists critical of globalization including Habermas Negri Holloway Postone and de Benoist this book examines critical theory approaches to alter globalization illustrated with concrete examples of movements within contemporary Europe In so doing it invites readers to explore the charges of nationalism anti Americanism and antisemitism brought against parts of the alter globalization movement Providing a new perspective on critiques of globalization Against Old Europe will appeal to sociologists and social and political theorists studying social movements anti globalization activism and European politics and identity

Protest Camps in International Context Gavin Brown, Anna Feigenbaum, Fabian Frenzel, Patrick McCurdy, 2017-03-29 From the squares of Spain to indigenous land in Canada protest camps are a tactic used around the world Since 2011 they have gained prominence in recent waves of contentious politics deployed by movements with wide ranging demands for social change Through a series of international and interdisciplinary case studies from five continents this topical collection is the first to focus on protest camps as unique organisational forms that transcend particular social movements contexts Whether erected in a park in Istanbul or a street in Mexico City the significance of political encampments rests in their position as distinctive spaces where people come together to imagine alternative worlds and articulate contentious politics often in confrontation with the state Written by a wide range of experts in the field the book offers a critical understanding of current protest events and will help better understanding of new global forms of democracy in action

Rethinking Utopia David M. Bell, 2017-01-20 Over five hundred years since it was named utopia remains a vital concept for understanding and challenging the world s we inhabit even in or rather because of the condition of post utopianism that supposedly permeates them In Rethinking Utopia David M Bell offers a diagnosis of the present through the

lens of utopia and then by rethinking the concept through engagement with utopian studies a variety of radical theories and the need for decolonizing praxis shows how utopianism might work within against and beyond that which exists in order to provide us with hope for a better future He proposes paying a subversive fidelity to utopia in which its three constituent terms good eu place topos and no ou are rethought to assert the importance of immanent affective relations The volume engages with a variety of practices and forms to articulate such a utopianism including popular education critical pedagogy musical improvisation and utopian literature The problems as well as the possibilities of this utopianism are explored although the problems are often revealed to be possibilities provided they are subject to material challenge Rethinking Utopia offers a way of thinking about and perhaps realising utopia that helps overcome some of the binary oppositions structuring much thinking about the topic It allows utopia to be thought in terms of place and process affirmation and negation and the real and the not yet It engages with the spatial and affective turns in the social sciences without ever uncritically being subsumed by them and seeks to make connections to indigenous cosmologies It is a cautious careful critical work punctuated by both pessimism and hope and a refusal to accept the finality of this or any world

Spycops Raphael Schlembach, 2024-04-23 The spycops scandal has laid bare the existence of secretive police units that sent undercover police officers to infiltrate and undermine hundreds of political campaigns and activist groups This is the first academic analysis of the activists experiences and their attempts to find answers and accountability in the Undercover Policing Inquiry Written from the perspective of the policed the author draws on extensive fieldwork and his first hand experience of police infiltration through his participation in climate campaigns

The Ruin Dwellers Jake P. Smith, 2025-09-03 Traces the shifting dynamics within leftist activism in 1970s and 80s Europe and its experiments in art life and politics The Ruin Dwellers takes readers into the urban spaces of youth revolts during the 1970s and 80s in West Germany and elsewhere in western and central Europe Whereas earlier generations of leftist activists were primarily oriented toward the utopian future participants in the youth movements of the 1970s and 80s developed a more complex set of temporal practices that sought to scramble the borders between the past present and future Examining a rich corpus of radical texts and practices historian Jake P Smith shows that squatters and their leftist allies in this period engaged in social cultural and aesthetic experiments with modes of autonomous living Smith brings to life the real and imagined landscapes conjured in squatted houses and street protests in art dress music graffiti and film and in philosophical poetic and political texts In so doing he offers an eye opening look at anarchic world making practices that found new ways of imagining an emancipated future through inhabiting the fractured past

Humour, subjectivity and world politics Alister Wedderburn, 2021-08-17 Questions about the ethical and political boundaries of comedy satire or irony have inspired widespread anxiety in recent years as with the 2015 shootings at the offices of Charlie Hebdo in Paris or the so called locker room banter that defined Donald Trump s 2016 election campaign What then can a turn to humour offer International Relations Drawing on literature across International Relations literary

theory cultural studies and sociology Alister Wedderburn argues that humour plays an underappreciated role in the making and unmaking of political subjectivities The book recovers a historical understanding of humour as a way of making a claim to political subjectivity in the face of its denial This function Wedderburn argues is embodied by the ambiguous figure of the parasite a stock character of Greek comic drama The book interrogates three separate sites where political actors have used humour parasitically in order to make political claims and demands In so doing it not only outlines humour s political potential and limitations but also demonstrates how everyday practices can draw from feed into interrupt and potentially transform global political relations Representing the first monograph length study on the politics of humour within International Relations this book makes a timely contribution to debates about the politics of humour subjectivity and everyday life The Oxford Handbook of Global Studies Mark Juergensmeyer, Saskia Sassen, Manfred B. Steger (#d), 2019 Since the end of the Cold War globalization has been reshaping the modern world and an array of new scholarship has risen to make sense of it in its various transnational manifestations including economic social cultural ideological technological environmental and in new communications The chapters discuss various aspects in the field through a broad range of approaches This handbook focuses on global studies more than on the phenomenon of globalization itself although the various aspects of globalization are central to understanding how the field is currently being shaped **Radical Philosophy**, 1972 **alternative press index** ALTERNATIVE PRESS INDEX, 2002
