

The background of the entire cover is a watercolor illustration. Two hands, one from the left and one from the right, are reaching towards each other with their index fingers touching at the top and their thumbs touching at the bottom, forming a heart shape. The hands are rendered in warm, earthy tones of brown, orange, and red. The background behind the hands is a soft, blended wash of colors: light blue at the top, transitioning through yellow and orange in the middle, and into deep reds and purples at the bottom. The overall style is artistic and spiritual.

R. Peters, 2009-03-01 Philosopher James R Peters defends the reasonableness of the Christian faith in *The Logic of the Heart*. He paves a middle road between the Enlightenment's worship of reason and postmodernism's emphasis on freedom and self-rule. He delves into the thought of theologian St Augustine and philosopher mathematician Blaise Pascal and engages the skeptic David Hume who argued against the possibility of miracles. Throughout this process, Peters provides an alternative to postmodern thought as well as the widespread New Atheism. This work is appropriate for undergraduate and graduate students pursuing studies in philosophy of religion and historical theology. Since Peters writes in nontechnical language, readers interested in the relationship between faith and reason will also benefit from *The Logic of the Heart*.
