Bible Transformation Intercultural Biblical Literature:

Challenging Contextuality, 2024-07-31 Challenging Contextuality Bibles and Biblical Scholarship in Context provides a new and innovative contribution to the study of biblical texts by bringing together current approaches to biblical interpretation The volume sets the agenda for the future of the field and provides a synthesis of approaches to date In doing so it aligns itself with the broadly shared hermeneutical conviction that contextuality is a catalyst for interpretation This applies in equal measure to approaches and methods that are often framed as traditional or mainstream e g the methodological canon of the historical critical approach as the offspring of the European Enlightenment and those that are often dubbed contextual e g forms of feminist or indigenous interpretation The volume grounds contextual biblical interpretation within the broader landscape of biblical studies and the chapters are all interested in the contexts in which bibles are read Rather than a series of examples of contextual biblical interpretation this book is concerned with what it means to do contextual biblical interpretation how contextual biblical interpretation challenges biblical scholarship and what chances there are for this mode of inquiry What contexts are engaged and elucidated when it comes to bible use What contexts are made visible and invisible How can different contexts be theorized and understood The volume argues that it is not context that matters rather contemporary contexts should be a challenge and a chance for biblical scholarship its present and its future *Bible and Transformation* Hans de Wit,janet Dyk,2015-11-29 Engage the delightful and inspiring sometimes rough and rocky road to inclusive and transformative Bible reading This book offers the results of research within a new area of discipline empirical hermeneutics in intercultural perspective The book includes interpretations from the homeless in Amsterdam to Indonesia from African Xhosa readers to Norway to Madagascar American youths Germany Czech Republic Colombia and Haitian refugees in the Dominican Republic Features Interpretations from ordinary readers in more than twenty five countries Background introduction with history of the text Discussion of intertextual connections with Greco Roman authors The Liberation of Method David Janzen,2021-10-19 The field of biblical studies has championed the historical critical method as the only way to guarantee objective interpretation But in recent decades women people of color scholars from the Two Thirds World and members of the the LGBTQIA community have pursued hermeneutical approaches that provide interpretations useful for marginalized communities who see the Bible as a resource in their struggles against oppression Such liberative strategies remain at the margins of the field The Liberation of Method argues that this marginality must end and that liberative methods should become the central methods of biblical studies The first part of the book draws upon the hermeneutics of philosophical pragmatism to argue that because readers are responsible for the interpretation there is no necessary connection between the meanings they produce and the ones ancient authors may have intended As a result the historical critical method which prioritizes the study of the ancient contexts of biblical writings becomes an optional rather than a necessary aspect of interpretation The second part of The Liberation of Method argues that if we truly

hope to create an ethical academic field more privileged scholars and students must see their minoritized colleagues as the leaders in the field as models of the ethical liberative standards of interpretation

Do Small Groups Work? Anna Creedon, 2021-05-31 Engaging with the Bible in a small group context has the potential to be transformative but the picture is not without some complications Key factors in determining whether a small group can be transformed through scripture include the use or abuse of experts the opportunity for challenge in the group and how study materials are used Do Small Groups Work not only presents extensive research into these questions with the potential to transform practice but also offers a unique window into how practical theological research can productively encounter scripture

Biblical Interpretation and African Traditional Religion Helen C. John, 2019-05-15 In Biblical Interpretation and African Traditional Religion Helen C John juxtaposes grassroots biblical interpretations from Owamboland Namibia with professional interpretations of selected New Testament texts effectively demonstrating the capacity of grassroots interpretations to destabilise challenge and nuance dominant professional interpretations John uses a cross cultural and dialogical approach Cross Cultural Biblical Interpretation Groups to explore the relationship between African Traditional Religion ATR Christianity and biblical interpretation in Owamboland Namibia She contextualises the grassroots Owambo interpretations using fieldwork experiences and ethnographic literature thus heightening the cross cultural encounter In particular John reflects on Western epistemologies and the Eurocentric interpretative trends that are brought into relief by the African interpretations gathered in Owamboland

At the Intersection of Hermeneutics and Homiletics Yung Suk Kim, 2025-04-18 While hermeneutics involves comprehensive study of the biblical text whether through historical or literary or reader focused approaches homiletics is concerned with a selected theme message and on the composition and delivery of sermonic discourse aimed at a particular audience But the border between hermeneutics and homiletics is blurry because both disciplines require readers to engage the biblical text from their own contexts This collection deals with the intersection of hermeneutics and homiletics by exploring two revelatory texts one from the Hebrew Bible and the other from the New Testament the book of Ruth and Matthew 15 21 28 a Canaanite woman s encounter with Jesus Both reflect agonizing issues that readers must tackle im migration family community identity agency race ethnicity gender class culture economy and religion A diverse group of scholars brings their transgressive perspectives to the above texts Unfolding new areas of interest inquiry and insight they will transgress authoritative readings of biblical texts fashion hermeneutic horizons in dialogue with the text and forge homiletic trajectories toward contemporary audiences Without limiting interpretation to a box this volume looks to register bold voices to perennial issues in our day Homiletic transformation occurs through the relentless resistant reading of the text and through reimagining our world
